Under this €40,000,000,000 Global Medium Term Note Programme (the **Programme**), Banco Bilbao Vizcaya Argentaria, S.A. (the **Issuer** or **BBVA**) may from time to time issue notes (the **Notes**) denominated in any currency agreed between the Issuer and the relevant Dealer (as defined below).

The Issuer and its consolidated subsidiaries are referred to herein as the **Group**.

Notes may be issued in bearer or registered form (respectively **Bearer Notes** and **Registered Notes**). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed €40,000,000,000 (or its equivalent in other currencies calculated as described in the Programme Agreement described herein), subject to increase as described in this Offering Circular.

The Notes may be issued on a continuing basis to one or more of the Dealers specified under “*Overview of the Programme*” and any additional Dealer appointed under the Programme from time to time by the Issuer (each a **Dealer** and together the **Dealers**), which appointment may be for a specific issue or on an ongoing basis. References in this Offering Circular to the **relevant Dealer** shall, in the case of an issue of Notes being (or intended to be) subscribed or for which subscribers are being procured for by more than one Dealer, be to all Dealers agreeing to subscribe or to procure subscribers for such Notes.

**An investment in Notes issued under the Programme involves certain risks.** For a discussion of these risks see “*Risk Factors*”.

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the **Securities Act**), or any U.S. state securities laws and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act) unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities laws of any state of the United States and any other jurisdiction. See “*Form of the Notes*” for a description of the manner and form in which Notes will be issued. Registered Notes are subject to certain restrictions on transfer, see “*Subscription and Sale and Transfer and Selling Restrictions*”.

**Potential investors should note the statements on pages 122 to 123 regarding the tax treatment in Spain of income obtained in respect of the Notes and the disclosure requirements imposed by the First Additional Provision of Law 10/2014 of 26th June, 2014.**

The Programme and the Issuer have been rated BBB+ by Standard & Poor's Credit Market Services Europe Limited (**S&P**), Baa1 by Moody's Investors Services España, S.A. (**Moody's**) and A- by Fitch Ratings España S.A.U. (**Fitch**). Each of S&P, Moody's and Fitch is established in the European Union (the **EU**) and is registered under Regulation (EC) No.1060/2009 (as amended) (the **CRA Regulation**). As such, each of S&P, Moody's and Fitch is included in the list of credit rating agencies published by the European Securities and Markets Authority (**ESMA**) on its website (at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>) in accordance with such Regulation. Notes issued under the Programme may be rated or unrated by one or more of the rating agencies referred to above. Where a Tranche of Notes is rated, such rating will be disclosed in the Final Terms and will not necessarily be the same as the rating assigned to the Programme by the relevant rating agency. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

This Offering Circular is issued in replacement of the Offering Circular dated 18th December 2015 and accordingly supersedes that Offering Circular. This does not affect any Notes issued under the Programme prior to the date of this Offering Circular.

The Dealers expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Programme or to advise any investor in Notes issued under the Programme of any information coming to their attention.

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer and the Dealers do not represent that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer or the Dealers which is intended to permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in Japan, the United States and the EEA (including the United Kingdom, Spain, the Republic of Italy and France), see “*Subscription and Sale and Transfer and Selling Restrictions*”.

The Notes have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities approved this Offering Circular or confirmed the accuracy or determined the adequacy of the information contained in this Offering Circular. Any representation to the contrary is unlawful.

Neither the Issuer nor any of the Dealers makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should be able to bear the economic risk of an investment in the Notes for an indefinite period of time.

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor’s currency;
- (iv) understands thoroughly the terms of the Notes and be familiar with the behaviour of financial markets; and

- 
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors may be subject to law or review or regulation by certain authorities. Each potential investor should determine for itself, on the basis of professional advice where appropriate, whether and to what extent (i) Notes are lawful investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

## RISK FACTORS

*In purchasing Notes, investors expose themselves to the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which they currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer believes that the factors described below represent the principal factors which could materially adversely affect its businesses and ability to make payments due under the Notes. In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.*

*Prospective investors should also read the detailed information set out elsewhere in this Offering Circular and reach their own views prior to making any investment decision.*

### **FACTORS THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS IN RESPECT OF NOTES ISSUED UNDER THE PROGRAMME**

#### **Macroeconomic Risks**

***Economic conditions in the countries where the Group operates could have a material adverse effect on the Group's business, financial condition and results of operations***

Despite the growth of the global economy and its recovery after the 2008 and 2009 global financial crisis and Europe's debt crisis in 2011 and 2012, the economic environment remains characterised by considerable uncertainty. The deterioration of economic conditions in the countries where the Group operates could adversely affect the cost and availability of funding for the Group, the quality of the Group's loan and investment securities portfolios and levels of deposits and profitability, which may also require the Group to take impairments on its exposures to the sovereign debt of one or more countries or otherwise adversely affect the Group's business, financial condition and results of operations. In addition, the process the Group uses to estimate losses inherent in its credit exposure requires complex judgments, including forecasts of economic conditions and how these economic conditions might impair the ability of its borrowers to repay their loans. The degree of uncertainty concerning economic conditions may adversely affect the accuracy of the Group's estimates, which may, in turn, affect the reliability of the process and the sufficiency of the Group's loan loss provisions.

The Group faces, among others, the following economic risks:

- weak economic growth or recession in the countries where it operates;
- changes in the institutional environment in the countries where it operates could evolve into sudden and intense economic and/or regulatory downturns;
- deflation, mainly in Europe, or significant inflation, such as the significant inflation recently experienced by Venezuela and Argentina;
- changes in foreign exchange rates, such as the recent local currency devaluations in Venezuela and Argentina, as they result in changes in the reported earnings of the Group's subsidiaries outside the Eurozone, and their assets, including their risk-weighted assets, and liabilities;
- a lower interest rate environment, even a prolonged period of negative interest rates in some areas where the Issuer operates, which could lead to decreased lending margins and lower returns on assets; or a higher interest rate environment, including as a result of an increase in interest rates by the Federal Reserve, which could affect consumer debt affordability and corporate profitability;

## RISK FACTORS

---

- any further tightening of monetary policies, including to address inflationary pressures and currency devaluations in Latin America, which could endanger a still tepid and fragile economic recovery and make it more difficult for customers of the Group's mortgage and consumer loan products to service their debts;
- adverse developments in the real estate market, especially in Spain, Mexico, the United States and Turkey, given the Group's exposures to such markets;
- poor employment growth and structural challenges restricting employment growth, such as in Spain, where unemployment has remained relatively high, which may negatively affect the household income levels of the Group's retail customers and may adversely affect the recoverability of the Group's retail loans, resulting in increased loan loss provisions;
- lower oil prices, which could particularly affect producing areas, such as Venezuela, Mexico, Texas or Colombia, to which the Group is materially exposed;
- changes in laws, regulations and policies as a result of election processes in the different geographies in which the Group operates, including Spain, the Spanish region of Catalonia and the United States, which may negatively affect the Group's business or customers in those geographies and other geographies in which the Group operates;
- the potential exit by an EU Member State from the European Monetary Union (EMU), which could materially adversely affect the European and global economy, cause a redenomination of financial instruments or other contractual obligations from the euro to a different currency and substantially disrupt capital, interbank, banking and other markets, among other effects;
- the possible political, economic and regulatory impacts in the United Kingdom and the EU derived from the outcome of the referendum held in the United Kingdom on 23 June 2016, which resulted in a vote in favour of the United Kingdom leaving the EU. The possible impact of the United Kingdom exiting the EU could include, among other things, political instability in the United Kingdom, the EU as a whole, or countries forming part of the EU; regulatory changes in the United Kingdom and/or in the EU; economic slowdown in the United Kingdom, in the EU, and/or outside the EU; deterioration of the creditworthiness of borrowers based in or related to the United Kingdom; and volatility in financial markets which could limit or condition the Issuer's or any other issuer's access to capital markets, all of which may arise regardless of the uncertainty as to the timing and duration of the exit process; and
- an eventual government default on public debt, which could affect the Group primarily in two ways: directly, through portfolio losses, and indirectly, through instabilities that a default in public debt could cause to the banking system as a whole, particularly since commercial banks' exposure to government debt is generally high in several countries in which the Group operates;

For additional information relating to certain economic risks that the Group faces in Spain, see “—*Since the Group's loan portfolio is highly concentrated in Spain, adverse changes affecting the Spanish economy could have a material adverse effect on its financial condition.*” For additional information relating to certain economic risks that the Group faces in emerging market economies such as Latin America and Turkey, see “—*The Group may be materially adversely affected by developments in the emerging markets where it operates.*”

Any of the above risks could have a material adverse effect on the Group's business, financial condition and results of operations.

***Since the Group's loan portfolio is highly concentrated in Spain, adverse changes affecting the Spanish economy could have a material adverse effect on its financial condition***

The Group has historically developed its lending business in Spain, which continues to be its main place of business. The Group's loan portfolio in Spain has been adversely affected by the deterioration of the Spanish economy since 2009. After rapid economic growth until 2007, Spanish gross domestic product (GDP) contracted in the period 2009-10 and 2012-13. The effects of the financial crisis were particularly pronounced in Spain given its heightened need for foreign financing as reflected by its high current account deficit, resulting from the gap between domestic investment and savings, and its public deficit. While the current account imbalance has now been corrected (with GDP growth of 3.2 per cent. in 2015) and the public deficit is diminishing, real or perceived difficulties in servicing public or private debt could increase Spain's financing costs. In addition, unemployment levels continue to be high and a change in the current recovery of the labor market would adversely affect households' gross disposable income.

The Spanish economy is particularly sensitive to economic conditions in the Eurozone, the main market for Spanish goods and services exports. Accordingly, an interruption in the recovery in the Eurozone might have an adverse effect on Spanish economic growth. Given the relevance of the Group's loan portfolio in Spain, any adverse changes affecting the Spanish economy could have a material adverse effect on the Group's business, financial condition and results of operations.

***Any decline in the Kingdom of Spain's sovereign credit ratings could adversely affect the Group's business, financial condition and results of operations***

Since the Issuer is a Spanish company with substantial operations in Spain, its credit ratings may be adversely affected by the assessment by rating agencies of the creditworthiness of the Kingdom of Spain. As a result, any decline in the Kingdom of Spain's sovereign credit ratings could result in a decline in the Issuer's credit ratings. In addition, the Group holds a substantial amount of securities issued by the Kingdom of Spain, autonomous communities within Spain and other Spanish issuers. Any decline in the Kingdom of Spain's credit ratings could adversely affect the value of the Kingdom of Spain's and other public or private Spanish issuers' respective securities held by the Group in its various portfolios or otherwise materially adversely affect the Group's business, financial condition and results of operations. Furthermore, the counterparties to many of the Group's loan agreements could be similarly affected by any decline in the Kingdom of Spain's credit ratings, which could limit their ability to raise additional capital or otherwise adversely affect their ability to repay their outstanding commitments to the Group and, in turn, materially and adversely affect the Group's business, financial condition and results of operations.

***The Group may be materially adversely affected by developments in the emerging markets where it operates***

The economies of some of the emerging markets where the Group operates, mainly Latin America and Turkey, experienced significant volatility in recent decades, characterised, in some cases, by slow or declining growth, declining investment and hyperinflation.

Emerging markets are generally subject to greater risks than more developed markets. For example, there is typically a greater risk of loss from unfavorable political and economic developments, social and geopolitical instability, changes in governmental policies, including expropriation, nationalisation, international ownership legislation, interest-rate caps and tax policies, and political unrest, such as the attempted coup in Turkey on 15th July, 2016 and state of emergency entitling the exercise of additional powers by the Turkish government first declared on 20th July, 2016. In addition, these emerging markets are affected by conditions in other related markets and in global financial markets generally and some are particularly affected by commodities price fluctuations, which in turn may affect financial market conditions through exchange rate fluctuations, interest rate volatility and deposits volatility. As a global economic recovery remains fragile, there are risks of deterioration. If the global economic conditions deteriorate, the business, financial condition, operating results and cash flows of the Issuer's subsidiaries in emerging economies, mainly in Latin America and Turkey, may be materially adversely affected.

## RISK FACTORS

---

Furthermore, financial turmoil in any particular emerging market could negatively affect other emerging markets or the global economy in general. Financial turmoil in emerging markets tends to adversely affect stock prices and debt securities prices of other emerging markets as investors move their money to more stable and developed markets, and may reduce liquidity to companies located in the affected markets. An increase in the perceived risks associated with investing in emerging economies in general, or the emerging market economies where the Group operates in particular, could dampen capital flows to such economies and adversely affect such economies.

In addition, any changes in laws, regulations and policies pursued by the incoming U.S. Government may adversely affect the emerging markets in which the Group operates, particularly Mexico due to the trade and other ties between Mexico and the United States.

If economic conditions in the emerging market economies where the Group operates deteriorate, the Group's business, financial condition and results of operations could be materially adversely affected.

***The Group's earnings and financial condition have been, and its future earnings and financial condition may continue to be, materially affected by depressed asset valuations resulting from poor market conditions***

Severe market events such as the past sovereign debt crisis, rising risk premiums and falls in share market prices, have resulted in the Group recording large write-downs on its credit market exposures in recent years. In particular, negative growth expectations and lack of confidence that policy changes would solve problems led to steep falls in asset values and a severe reduction in market liquidity in 2012 and 2013, followed by a moderated recovery in 2014 and the first half of 2015. In the second half of 2015 and the beginning of 2016, however, the uncertainty about China's growth expectations and its policymaking capability to address certain severe future challenges resulted in sudden and intense deterioration of the valuation of global assets and further increased volatility in the global financial markets. Additionally, in dislocated markets, hedging and other risk management strategies may not be as effective as they are in more normal market conditions due in part to the decreasing credit quality of hedge counterparties. Any deterioration in economic and financial market conditions could lead to further impairment charges and write-downs.

***Exposure to the real estate market makes the Group vulnerable to developments in this market***

The Group has substantial exposure to the real estate market, mainly in Spain, Mexico and the United States. The Group is exposed to the real estate market due to the fact that real estate assets secure many of its outstanding loans and due to the significant amount of real estate assets held on its balance sheet. Any deterioration of real estate prices could materially and adversely affect the Group's business, financial condition and results of operations.

### **Legal, Regulatory and Compliance Risks**

***The Group is subject to substantial regulation and regulatory and governmental oversight. Changes in the regulatory framework could have a material adverse effect on its business, results of operations and financial condition***

The financial services industry is among the most highly regulated industries in the world. In response to the global financial crisis and the European sovereign debt crisis, governments, regulatory authorities and others have made and continue to make proposals to reform the regulatory framework for the financial services industry to enhance its resilience against future crises. Legislation has already been enacted and regulations issued in response to some of these proposals. The regulatory framework for financial institutions is likely to undergo further significant change. This creates significant uncertainty for the Group and the financial industry in general. The wide range of recent actions or current proposals includes, among other things, provisions for more stringent regulatory capital and liquidity standards, restrictions on compensation practices, special bank levies and financial transaction taxes, recovery and resolution powers to intervene in a crisis including "bail-in" of creditors, separation of certain businesses from deposit taking, stress testing and capital planning regimes, heightened reporting requirements and reforms of derivatives, other financial instruments, investment products and market infrastructures.

## RISK FACTORS

---

In addition, the new institutional structure in Europe for supervision, with the creation of the single supervisor, and for resolution, with the new single resolution mechanism, could lead to changes in the near future. The specific effects of a number of new laws and regulations remain uncertain because the drafting and implementation of these laws and regulations are still ongoing. In addition, since some of these laws and regulations have been recently adopted, the manner in which they are applied to the operations of financial institutions is still evolving. No assurance can be given that laws or regulations will be enforced or interpreted in a manner that will not have a material adverse effect on the Group's business, financial condition, results of operations and cash flows. In addition, regulatory scrutiny under existing laws and regulations has become more intense.

Furthermore, regulatory authorities have substantial discretion in how to regulate banks, and this discretion, and the means available to the regulators, have been steadily increasing during recent years. Regulation may be imposed on an ad hoc basis by governments and regulators in response to a crisis, and these may especially affect financial institutions such as the Issuer that are deemed to be systemically important.

In addition, local regulations in certain jurisdictions where the Group operates differ in a number of material respects from equivalent regulations in Spain or the United States. Changes in regulations may have a material adverse effect on the Group's business, results of operations and financial condition, particularly in Mexico, the United States, Venezuela, Argentina and Turkey. Furthermore, regulatory fragmentation, with some countries implementing new and more stringent standards or regulation, could adversely affect the Group's ability to compete with financial institutions based in other jurisdictions which do not need to comply with such new standards or regulation. Moreover, to the extent recently adopted regulations are implemented inconsistently in the various jurisdictions in which the Group operates, the Group may face higher compliance costs.

Any required changes to the Group's business operations resulting from the legislation and regulations applicable to such business could result in significant loss of revenue, limit the Group's ability to pursue business opportunities in which the Group might otherwise consider engaging, affect the value of assets that the Group holds, require the Group to increase its prices and therefore reduce demand for its products, impose additional costs on the Group or otherwise adversely affect the Group's businesses. For example, the Group is subject to substantial regulation relating to liquidity. Future liquidity standards could require the Group to maintain a greater proportion of its assets in highly-liquid but lower-yielding financial instruments, which would negatively affect its net interest margin. Moreover, the Group's regulators, as part of their supervisory function, periodically review the Group's allowance for loan losses. Such regulators may require the Group to increase its allowance for loan losses or to recognise further losses. Any such additional provisions for loan losses, as required by these regulatory agencies, whose views may differ from those of the Group's management, could have an adverse effect on the Group's earnings and financial condition.

Adverse regulatory developments or changes in government policy relating to any of the foregoing or other matters could have a material adverse effect on the Group's business, results of operations and financial condition.

### ***Increasingly onerous capital requirements may have a material adverse effect on the Issuer's business, financial condition and results of operations***

As a Spanish credit institution, the Issuer is subject to Directive 2013/36/EU of the European Parliament and of the Council of 26th June, 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms and repealing Directives 2006/48/EC and 2006/49/EC (the **CRD IV Directive**) through which the EU began implementing the Basel III capital reforms, with effect from 1st January, 2014, with certain requirements in the process of being phased in until 1st January, 2019. The core regulation regarding the solvency of credit entities is Regulation (EU) No. 575/2013 of the European Parliament and of the Council of 26th June, 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No. 648/2012 (the **CRR** and together with the CRD IV Directive and any CRD IV Implementing Measures (as defined in Condition 3(b)), **CRD IV**), which is complemented by several binding regulatory technical standards, all of which are directly applicable in all EU Member States, without the need for national implementation measures. The implementation of CRD IV

## RISK FACTORS

---

Directive into Spanish law has taken place through Royal Decree-Law 14/2013 of 29th November (**RD-L 14/2013**), Law 10/2014, Royal Decree 84/2015 of 13th February (**RD 84/2015**), Bank of Spain Circular 2/2014 of 31st January and Bank of Spain Circular 2/2016 of 2nd February (the **Bank of Spain Circular 2/2016**). On 23rd November 2016, the European Commission announced a further package of reforms to CRD IV, the BRRD and the SRM Regulation (each of the BRRD and SRM Regulation as defined below) (the **EU Banking Reforms**), including measures to increase the resilience of EU institutions and enhance financial stability. The timing for the final implantation of these reforms as at the date of this Offering Circular is unclear.

CRD IV has, among other things, established minimum “Pillar 1” capital requirements and increased the level of capital required by means of a “combined buffer requirement” that entities must comply with from 2016 onwards. The “combined buffer requirement” has introduced five new capital buffers: (i) the capital conservation buffer, (ii) the global systemically important institutions buffer (the **G-SIB buffer**), (iii) the institution-specific countercyclical buffer, (iv) the other systemically important institutions buffer (the **D-SIB buffer**) and (v) the systemic risk buffer. The “combined buffer requirement” applies in addition to the minimum “Pillar 1” capital requirements and is required to be satisfied with common equity tier 1 (**CET1**) capital.

The capital conservation buffer and the G-SIB buffer (where applicable) are mandatory for all credit institutions since they establish a greater capital requirement in all circumstances and will always result in an additional percentage capital requirement of higher than 0 per cent.

The G-SIB buffer applies to those institutions included on the list of global systemically important banks (**G-SIBs**), which is updated annually by the Financial Stability Board (the **FSB**). The Issuer has been excluded from this list with effect from 1st January, 2017 and so, unless otherwise indicated by the FSB (or the Bank of Spain) in the future, it will only be required to maintain the G-SIB buffer for 2016.

The Bank of Spain has greater discretion in relation to the institution-specific countercyclical buffer, the buffer for other systemically important institutions (those institutions deemed to be of local systemic importance, domestic systemically important banks or **D-SIBs**) and the systemic risk buffer (a buffer to prevent systemic or macro prudential risks). With the entry into force of the Single Supervisory Mechanism (the **SSM**) on 4th November, 2014, the European Central Bank (the **ECB**) also has the ability to provide certain recommendations in this respect.

The Bank of Spain agreed in December 2015 to set the countercyclical capital buffer applicable to credit exposures in Spain at 0 per cent. from 1st January, 2016. The percentages will be revised each quarter and, accordingly, the Bank of Spain agreed in September 2016 to maintain the countercyclical capital buffer at 0 per cent. for the fourth quarter of 2016.

Moreover, Article 104 of the CRD IV Directive, as implemented by Article 68 of Law 10/2014, and similarly Article 16 of Council Regulation (EU) No. 1024/2013 of 15th October, 2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the **SSM Regulation**), also contemplate that in addition to the minimum “Pillar 1” capital requirements, supervisory authorities may impose further “Pillar 2” capital requirements to cover other risks, including those not considered to be fully captured by the minimum “own funds” “Pillar 1” requirements under CRD IV or to address macro-prudential considerations. Under the EU Banking Reforms, it is proposed that further “Pillar 2” capital requirements should be used to address micro-prudential considerations only.

In accordance with the SSM Regulation, the ECB has fully assumed its new supervisory responsibilities of the Issuer and the Group within the SSM. The ECB is required under the SSM Regulation to carry out a supervisory review and evaluation process (the **SREP**) of the Issuer and the Group at least on an annual basis.

In addition to the above, the European Banking Authority (the **EBA**) published on 19th December, 2014 its final guidelines for common procedures and methodologies in respect of the SREP (the **EBA SREP Guidelines**). Included in this were the EBA’s proposed guidelines for a common approach to determining the amount and composition of additional “Pillar 2” own funds requirements to be implemented from 1st January,

## RISK FACTORS

---

2016. Under these guidelines, national supervisors should set a composition requirement for the “Pillar 2” requirements to cover certain specified risks of at least 56 per cent. CET1 capital and at least 75 per cent. Tier 1 capital. The guidelines also contemplate that national supervisors should not set additional own funds requirements in respect of risks which are already covered by the “combined buffer requirement” and/or additional macro-prudential requirements.

Accordingly, any additional “Pillar 2” own funds requirement that may be imposed on the Issuer and/or the Group by the ECB pursuant to the SREP will require the Issuer and/or the Group to hold capital levels above the minimum “Pillar 1” capital requirements.

As a result of the most recent SREP carried out by the ECB in 2015, the Issuer has been informed by the ECB that it is required to maintain a CET1 phased-in capital ratio of 9.5 per cent. (both on a consolidated and individual basis). This CET1 capital ratio of 9.5 per cent. includes (i) the minimum CET1 capital ratio required under “Pillar 1” (4.5 per cent.), (ii) the additional own funds requirement under “Pillar 2” and (iii) the capital conservation buffer (0.625 per cent. phased-in and 2.5 per cent. fully loaded).

Further, as of 1st January, 2016 the Issuer is required to maintain a G-SIB buffer of a CET1 capital ratio of 1 per cent. on a consolidated basis. The G-SIB buffer is being phased-in from 1st January, 2016 to 1st January, 2019, with the result that the G-SIB buffer applicable to the Issuer for 2016 is a CET1 capital ratio of 0.25 per cent. on a consolidated basis. In addition, as of 1st January, 2016, the Issuer is required to maintain a D-SIB buffer of a CET1 capital ratio of 0.5 per cent. on a consolidated basis. The D-SIB buffer is also being phased-in from 1st January, 2016 to 1st January, 2019, with the result that the D-SIB buffer applicable to the Issuer for 2016 is a CET1 capital ratio of 0.125 per cent. on a consolidated basis.

Accordingly, under CRD IV the Issuer is required to maintain a systemic buffer equal to the G-SIB buffer for 2016 because the requirements for the G-SIB buffer exceed those of the D-SIB buffer. As a result, the total minimum CET1 phased-in capital requirement of the Issuer for 2016 is 9.75 per cent. on a consolidated basis.

Following the Issuer’s exclusion from the G-SIB list of the FSB effective on 1st January, 2017, the G-SIB buffer will, unless otherwise indicated by the FSB or the Bank of Spain in the upcoming annual reviews, no longer apply to the Issuer from this date. However, the Bank of Spain announced on 7th November, 2016 that the Issuer will continue to be considered as a D-SIB for 2017 and consequently the Issuer will be required to maintain during 2017 a D-SIB buffer of a CET1 capital ratio of 0.75 per cent. on a consolidated basis. Due to the phasing-in of the D-SIB buffer from 1st January, 2016 to 1st January, 2019, this will result in the D-SIB buffer applicable to the Issuer in 2017 being a CET1 capital ratio of 0.375 per cent. on a consolidated basis.

Some or all of the other buffers may also apply to the Issuer and/or the Group from time to time as determined by the Regulator (as defined in Condition 3(b)).

As of 31st December, 2015, BBVA’s CET1 phased-in capital ratio was 12.1 per cent. on a consolidated basis and 17.8 per cent. on an individual basis. Such ratios exceed the applicable regulatory requirements described above, but there can be no assurance that the total capital requirements (“Pillar 1” plus “Pillar 2” plus “combined buffer requirement”) imposed on the Issuer and/or the Group from time to time may not be higher than the levels of capital available at such point in time. There can also be no assurance as to the result of any future SREP carried out by the ECB and whether this will impose any further “Pillar 2” additional own funds requirements on the Issuer and/or the Group.

Any failure by the Issuer and/or the Group to maintain its “Pillar 1” minimum regulatory capital ratios, any “Pillar 2” additional own funds requirements and/or any “combined buffer requirement” could result in administrative actions or sanctions, which, in turn, may have a material adverse effect on the Group’s results of operations. In particular, any failure to maintain any additional capital requirements pursuant to the “Pillar 2” framework or any other capital requirements to which the Issuer and/or the Group is or becomes subject (including the “combined buffer requirement”), may result in the imposition of restrictions or prohibitions on “discretionary payments” by the Issuer as discussed below.

According to Article 48 of Law 10/2014, Article 73 of RD 84/2015 and Rule 24 of Bank of Spain Circular 2/2016, any entity not meeting its “combined buffer requirement” is required to determine its Maximum Distributable Amount (**MDA**) as described therein. Until the MDA has been calculated and communicated to the Bank of Spain, the relevant entity will be subject to restrictions on (i) distributions relating to CET1 capital, (ii) payments in respect of variable remuneration or discretionary pension revenues and (iii) distributions relating to Additional Tier 1 instruments (discretionary payments) and, thereafter, any such discretionary payments by that entity will be subject to such MDA. Furthermore, as set forth in Article 48 of Law 10/2014, the adoption by the Bank of Spain of the measures prescribed in Articles 68.2.h) and 68.2.i) of Law 10/2014 aimed at strengthening own funds or limiting or prohibiting the distribution of dividends respectively will also restrict discretionary payments to such MDA.

As set out in the “Opinion of the European Banking Authority on the interaction of Pillar 1, Pillar 2 and combined buffer requirements and restrictions on distributions” published on 16th December, 2015 (the **December 2015 EBA Opinion**), in the EBA’s opinion competent authorities should ensure that the CET1 capital to be taken into account in determining the CET1 capital available to meet the “combined buffer requirement” for the purposes of the MDA calculation is limited to the amount not used to meet the “Pillar 1” and, if applicable, “Pillar 2” own funds requirements of the institution. In addition, the December 2015 EBA Opinion advises the European Commission (i) to review Article 141 of the CRD IV Directive with a view to avoiding differing interpretations of Article 141(6) and ensure greater consistency between the maximum distributable amount framework and the capital stacking order described in the opinion and in the EBA SREP Guidelines by which the “Pillar 1” and, if applicable, “Pillar 2” capital requirements represent the minimum capital to be preserved at all times by an institution and it is only the CET1 capital of that institution not used to meet its “Pillar 1” and, if applicable, “Pillar 2” requirements that is then available to meet the “combined buffer requirement” of the institution and (ii) to review the prohibition on distributions in all circumstances where an institution fails to meet the “combined buffer requirement” and no profits are made in any given year, notably insofar as it relates to Additional Tier 1 instruments. There can be no assurance as to how and when binding effect will be given to the December 2015 EBA Opinion in Spain, including as to the consequences for an institution of its capital levels falling below those necessary to meet these requirements. The EU Banking Reforms propose certain amendments in order to clarify, for the purposes of restrictions on distributions, the hierarchy between the “Pillar 2” additional own funds requirements, the minimum “own funds” “Pillar 1” requirements, the own funds and eligible liabilities requirement, MREL requirements and the “combined buffer requirements” (which is referred to as “stacking order”).

On 1st July, 2016, the EBA published additional information explaining how supervisors intend to use the results of an EU-wide stress test for SREP in 2016 (which results were published on 29th July, 2016). The EBA stated, among other things, that the incorporation of the quantitative results of the EU-wide stress test into SREP assessments may include setting additional supervisory monitoring metrics in the form of capital guidance. Such guidance will not be included in MDA calculations but competent authorities would expect banks to meet that guidance except when explicitly agreed. Competent authorities have remedial tools if an institution refuses to follow such guidance. The EU Banking Reforms also propose that a distinction be made between “Pillar 2” capital requirements and guidance, with only the former being mandatory requirements.

The ECB has also set out in its recommendation of 17th December, 2015 on dividend distribution policies, that credit institutions should establish dividend policies using conservative and prudent assumptions in order, after any distribution, to satisfy the applicable capital requirements.

Any failure by the Issuer and/or the Group to comply with its regulatory capital requirements could also result in the imposition of further “Pillar 2” requirements and the adoption of any early intervention or, ultimately, resolution measures by resolution authorities pursuant to Law 11/2015 of 18th June on the Recovery and Resolution of Credit Institutions and Investment Firms (*Ley 11/2015, de 18 de junio de recuperación y resolución de entidades de crédito y empresas de servicios de inversión*) (**Law 11/2015**), which, together with Royal Decree 1012/2015 of 6th November by virtue of which Law 11/2015 is developed and Royal Decree 2606/1996 of 20th December on credit entities’ deposit guarantee fund is amended (**RD 1012/2015**) has implemented Directive 2014/59/EU of 15th May establishing a framework for the recovery and resolution of credit institutions and investment firms (the **BRRD**) into Spanish law.

## RISK FACTORS

---

At its meeting of 12th January, 2014, the oversight body of the Basel Committee on Banking Supervision (BCBS) endorsed the definition of the leverage ratio set forth in CRD IV, to promote consistent disclosure, which applied from 1st January, 2015. There will be a mandatory minimum capital requirement on 1st January, 2018, with an initial minimum leverage ratio of 3 per cent. that can be raised after calibration. The proposed revisions to the design and calibration of the leverage ratio were set out in the BCBS April 2016 consultation paper entitled "Revisions to the Basel III leverage ratio framework". The consultation period ended on 6th July, 2016 and BCBS has agreed to finalise the calibration of the leverage ratio in 2016 to allow sufficient time for it to be implemented by 1st January, 2018. The EU Banking Reforms propose a binding leverage ratio requirement of 3 per cent. of Tier 1 capital that is added to an institution's own funds requirements and that an institution must meet in addition to its risk based requirements.

Basel III implementation differs across jurisdictions in terms of timing and applicable rules. For example, the Mexican government introduced the Basel III capital standards in 2012 whereas Basel III became effective in the United States on 1st January, 2015 for credit institutions with total consolidated assets of less than U.S.\$250 billion. This lack of uniformity among implemented rules may lead to an uneven playing field and to competition distortions. Moreover, the lack of regulatory coordination, with some countries bringing forward the application of Basel III requirements or increasing such requirements, could adversely affect a bank with global operations such as the Issuer and could undermine its profitability.

See also " - Any failure by the Issuer and/or the Group to comply with its minimum requirement for own funds and eligible liabilities (MREL) could have a material adverse effect on the Issuer's business, financial condition and results of operations" below.

There can be no assurance that the implementation of the above capital requirements will not adversely affect the Issuer's ability to pay "discretionary payments" or result in the cancellation of such payments (in whole or in part), or require the Issuer to issue additional securities that qualify as regulatory capital, to liquidate assets, to curtail business or to take any other actions, any of which may have adverse effects on the Issuer's business, financial condition and results of operations. Furthermore, increased capital requirements may negatively affect the Issuer's return on equity and other financial performance indicators.

### ***The consolidation of Garanti in the consolidated financial statements of the Group may result in increased capital requirements***

On 19th November, 2014, the Issuer entered into agreements for the acquisition from Doğu Holding A.Ş. and Ferit Faik Şahenk, Dianne Şahenk and Defne Şahenk, respectively, of 62,538,000,000 shares of Türkiye Garanti Bankası A.Ş. (**Garanti**). The acquisition was conditional on obtaining all necessary regulatory consents from the relevant Turkish, Spanish, EU and, if applicable, other jurisdictions' regulatory authorities and was completed in July 2015. Following completion of this acquisition, the Issuer fully consolidated its shareholding of 39.9 per cent. in Garanti in the consolidated financial statements of the Group. The consolidation of Garanti may result in an increase in the capital requirements imposed on the Group by the ECB through the SSM in accordance with the regulations applicable to Garanti and the Group from time to time and the criteria of the SSM in relation to Turkey and/or Garanti.

### ***Any failure by the Issuer and/or the Group to comply with its minimum requirement for own funds and eligible liabilities (MREL) could have a material adverse effect on the Issuer's business, financial condition and results of operations***

The BRRD prescribes that banks shall hold a minimum level of own funds and eligible liabilities in relation to total liabilities (known as **MREL**). On 3rd July, 2015 the EBA published the final draft technical standard on the criteria for determining MREL, which was adopted with certain amendments by the European Commission pursuant to Commission Delegated Regulation (EU) 2016/1450 of 23rd May, 2016 (the **MREL Delegated Regulation**). The level of own funds and eligible liabilities required under MREL will be set by the resolution authority for each bank (and/or group) based on, among other things, the criteria set forth in Article 45.6 of the BRRD, including the systemic importance of the institution. Eligible liabilities may be senior or subordinated, provided, among other requirements, that they have a remaining maturity of at least

one year and, if governed by a non-EU law, they must be able to be written down or converted under that law (including through contractual provisions).

The MREL requirement came into force on 1st January, 2016. However, the EBA has recognised the impact which this requirement may have on banks' funding structures and costs and the MREL Delegated Regulation states that the resolution authorities shall determine an appropriate transitional period but that this shall be as short as possible. As part of the EU Banking Reforms, the European Commission published on 23rd November, 2016 a Proposal for a Directive of the European Parliament and the Council on amendments to the BRRD as regards the ranking of unsecured debt instruments in insolvency hierarchy (the **MREL Proposal**). The MREL Proposal proposes to harmonise national laws on recovery and resolution of credit institutions and investment firms, in particular as regards their loss-absorbency and recapitalisation capacity in resolution and proposes the creation of a new asset class of "non-preferred" senior debt that should only be bailed-in after other capital instruments but before other senior liabilities. The MREL Proposal anticipates that Member States will transpose the proposed amendments into the BRRD in their national laws by approximately June 2017 and that banks to which the amendments apply will have to comply with the amended rules by approximately July 2017.

On 9th November, 2015 the FSB published its final Total Loss-Absorbing Capacity (**TLAC**) Principles and Term Sheet (the **TLAC Principles and Term Sheet**), proposing that G-SIBs maintain significant minimum amounts of liabilities that are subordinated (by law, by contract or structurally) to certain prior ranking liabilities, such as guaranteed insured deposits, and which forms a new standard for G-SIBs. The TLAC Principles and Term Sheet contain a set of principles on loss absorbing and recapitalisation capacity of G-SIBs in resolution and a term sheet for the implementation of these principles in the form of an internationally agreed standard. The FSB will undertake a review of the technical implementation of the TLAC Principles and Term Sheet by the end of 2019. The TLAC Principles and Term Sheet require a minimum TLAC requirement to be determined individually for each G-SIB at the greater of (a) 16 per cent. of risk weighted assets as of 1st January 2019 and 18 per cent. as of 1st January 2022, and (b) 6 per cent. of the Basel III Tier 1 leverage ratio exposure measure as of 1st January 2019, and 6.75 per cent. as of 1st January, 2022. The Issuer will no longer be classified as a G-SIB by the FSB with effect from 1st January, 2017. However, if the Issuer were to be so classified in the future or if TLAC requirements are adopted and implemented in Spain, and extended to non G-SIBs through the imposition of similar MREL requirements as set out below, then this could create additional minimum capital requirements for the Issuer.

In this regard, the EBA submitted on 19th July, 2016 an interim report on the implementation and design of the MREL framework (the **EBA Interim Report**) which contains a number of provisional recommendations to amend the current MREL framework. The EU Banking Reforms contain the legislative proposal of the European Commission for the amendment of the MREL framework and the implementation of the TLAC standards. The EU Banking Reforms propose the amendment of a number of aspects of the MREL framework to align it with the TLAC standards included in the TLAC Principles and Term Sheet. To maintain coherence between the MREL rules applicable to G-SIBs and those applicable to non G-SIBs, the EU Banking Reforms also propose a number of changes to the MREL rules applicable to non-G-SIBs. While the EU Banking Reforms propose for a minimum harmonised or "Pillar 1" MREL requirement for G-SIBs, in the case of non-G-SIBs it is proposed that MREL requirements will be imposed on a bank-specific basis. For G-SIBs it is also proposed that a supplementary or "Pillar 2" MREL requirement may be further imposed on a bank-specific basis. The EU Banking Reforms further provide for the resolution authorities to give guidance to an institution to have own funds and eligible liabilities in excess of the requisite levels for certain purposes.

If the Relevant Spanish Resolution Authority finds that there could exist any obstacles to resolvability by the Issuer and/or the Group, a higher MREL requirement could be imposed.

Neither the BRRD nor the MREL Delegated Regulation provides details on the implications of a failure by an institution to comply with its MREL requirement. However, the EU Banking Reforms propose that this be addressed by the relevant authorities on the basis of their powers to address or remove impediments to resolution, the exercise of their supervisory powers under the CRD IV Directive, early intervention measures and administrative penalties and other administrative measures.

Furthermore, in accordance with the EBA Interim Report, the EBA provisionally considers that: (i) resolution authorities should have clear responsibility and a leading role in responding to a breach of MREL (which would require additional powers and an accelerated procedure for use of their powers to address impediments to resolvability); (ii) competent authorities may also respond to breaches of MREL; and (iii) resolution and competent authorities should closely cooperate and coordinate. The EU Banking Reforms also provide for resolution and competent authorities to consult each other in the exercise of their respective powers in relation to any breaches of MREL. In addition, under the EBA Guidelines on triggers for use of early intervention measures of 8th May, 2015 a significant deterioration in the amount of eligible liabilities and own funds held by an institution for the purposes of meeting its MREL requirements may put an institution in a situation where conditions for early intervention are met, which may result in the application by the competent authority of early intervention measures.

Accordingly, any failure by the Issuer and/or the Group to comply with its MREL requirement may have a material adverse effect on the Issuer's business, financial conditions and results of operations and could result in the imposition of restrictions or prohibitions on discretionary payments by the Issuer, including the payment of dividends. There can also be no assurance as to the relationship between the "Pillar 2" additional own funds requirements, the "combined buffer requirement", the MREL requirement once implemented in Spain and the restrictions or prohibitions on discretionary payments. Further, as outlined in the EBA Interim Report, the EBA's provisional view is that an institution will not be able to use CET 1 capital to meet both MREL and the combined buffer requirements but that this should be considered in the context of its interaction with the application of restrictions on discretionary payments and the SREP. Further, the EU Banking Reforms provide that, in the case of the own funds and eligible liabilities of an institution that may otherwise contribute to the combined buffer requirement where there is any shortfall in MREL, this will be considered as a failure to meet the combined buffer requirement such that those own funds will automatically be used instead to meet that institution's MREL requirement and will no longer count towards its combined buffer requirement. Accordingly, this could trigger a limit on discretionary payments (see " – *Increasingly onerous capital requirements may have a material adverse effect on the Issuer's business, financial condition and results of operations*" above). Additionally, if the Relevant Spanish Resolution Authority finds that there could exist any obstacles to resolvability by the Issuer and/or the Group, a higher MREL requirement could be imposed.

***Increased taxation and other burdens imposed on the financial sector may have a material adverse effect on the Issuer's business, financial condition and results of operations***

On 14th February, 2013 the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common financial transaction tax (**FTT**) in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and participating Member States may decide not to participate.

Royal Decree-Law 8/2014, of 4th July, introduced a 0.03 per cent. tax on bank deposits in Spain. This tax is payable annually by Spanish banks. There can be no assurance that additional national or transnational bank

levies or financial transaction taxes will not be adopted by the authorities of the jurisdictions where the Issuer operates.

***Contributions for assisting in the future recovery and resolution of the Spanish banking sector may have a material adverse effect on the Issuer's business, financial condition and results of operations***

In 2015, Law 11/2015 and RD 1012/2015 established a requirement for Spanish credit institutions, including the Issuer, to make at least an annual ordinary contribution to the National Resolution Fund (*Fondo de Resolución Nacional*) payable on request of the Fund for Orderly Bank Restructuring (*Fondo de Reestructuración Ordenada Bancaria*) (the **FROB**). The total amount of contributions to be made to the National Resolution Fund by all Spanish banking entities must equal, at least, one per cent. of the aggregate amount of all deposits guaranteed by the Deposit Guarantee Fund by 31st December, 2024. The contribution will be adjusted to the risk profile of each institution in accordance with the criteria set out in RD 1012/2015. The FROB may, in addition, collect extraordinary contributions.

Furthermore, Law 11/2015 has also established in 2015 an additional charge (*tasa*) which shall be used to further fund the activities of the FROB, in its capacity as a resolution authority, which charge shall equal 2.5 per cent. of the above annual ordinary contribution to be made to the National Resolution Fund.

In addition, since 2016 the Issuer has been required to make contributions directly to the EU Single Resolution Fund, once the National Resolution Fund has been integrated into it, and will have to pay supervisory fees to the SSM and the SRM. See “*–Regulatory developments related to the EU fiscal and banking union may have a material adverse effect on the Issuer's business, financial condition and results of operations.*”

Any levies, taxes or funding requirements imposed on the Issuer pursuant to the foregoing or otherwise in any of the jurisdictions where it operates could have a material adverse effect on the Issuer's business, financial condition and results of operations.

***Regulatory developments related to the EU fiscal and banking union may have a material adverse effect on the Issuer's business, financial condition and results of operations***

The project of achieving a European banking union was launched in the summer of 2012. Its main goal is to resume progress towards the European single market for financial services by restoring confidence in the European banking sector and ensuring the proper functioning of monetary policy in the Eurozone.

Banking union is expected to be achieved through new harmonised banking rules (the single rulebook) and a new institutional framework with stronger systems for both banking supervision and resolution that will be managed at the European level. Its two main pillars are the SSM and the Single Resolution Mechanism (**SRM**).

The SSM is intended to assist in making the banking sector more transparent, unified and safer. In accordance with the SSM Regulation, the ECB fully assumed its new supervisory responsibilities within the SSM, in particular the direct supervision of the largest European banks (including the Issuer), on 4th November, 2014.

The SSM represents a significant change in the approach to bank supervision at a European and global level, even if it is not expected to result in any radical change in bank supervisory practices in the short term. The SSM has resulted in the direct supervision by the ECB of the largest financial institutions, including the Issuer, and indirect supervision of around 3,500 financial institutions. The new supervisor is one of the largest in the world in terms of assets under supervision. In the coming years, the SSM is expected to work to establish a new supervisory culture importing best practices from the 19 supervisory authorities that form part of the SSM. Several steps have already been taken in this regard such as the publication of the Supervisory Guidelines and the creation of the SSM Framework Regulation. In addition, the SSM represents an extra cost for the financial institutions that fund it through payment of supervisory fees.

## RISK FACTORS

---

The other main pillar of the EU banking union is the SRM, the main purpose of which is to ensure a prompt and coherent resolution of failing banks in Europe at minimum cost. Regulation (EU) No. 806/2014 of the European Parliament and the Council of the European Union (the **SRM Regulation**), which was passed on 15th July, 2014, and took legal effect from 1st January, 2015, establishes uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of the SRM and a Single Resolution Fund. The new Single Resolution Board started operating from 1st January, 2015 and fully assumed its resolution powers on 1st January, 2016. The Single Resolution Fund has also been in place since 1st January, 2016, funded by contributions from European banks in accordance with the methodology approved by the Council of the European Union. The Single Resolution Fund is intended to reach a total amount of €55 billion by 2024 and to be used as a separate backstop only after an 8 per cent. bail-in of a bank's total liabilities including own funds has been applied to cover capital shortfalls (in line with the BRRD).

By allowing for the consistent application of EU banking rules through the SSM, the banking union is expected to help resume momentum towards economic and monetary union. In order to complete such union, a single deposit guarantee scheme is still needed which may require a change to the existing European treaties. This is the subject of continued negotiation by European leaders to ensure further progress is made in European fiscal, economic and political integration.

Regulations adopted towards achieving a banking and/or fiscal union in the EU and decisions adopted by the ECB in its capacity as the Issuer's main supervisory authority may have a material effect on the Issuer's business, financial condition and results of operations. In particular, the BRRD and Directive 2014/49/EU of the European Parliament and the Council of 16th April, 2014 on deposit guarantee schemes were published in the Official Journal of the EU on 12th June, 2014. The BRRD was implemented into Spanish law through Law 11/2015 and RD 1012/2015.

In addition, on 29th January, 2014, the European Commission released its proposal on the structural reforms of the European banking sector that will impose new constraints on the structure of European banks. The proposal is aimed at ensuring the harmonisation between the divergent national initiatives in Europe. It includes a prohibition on proprietary trading similar to that contained in Section 619 of the Dodd-Frank Act (also known as the Volcker Rule) and a mechanism to potentially require the separation of trading activities (including market making), such as in the Financial Services (Banking Reform) Act 2013, complex securitisations and risky derivatives.

There can be no assurance that regulatory developments related to the EU fiscal and banking union, and initiatives undertaken at EU level, will not have a material adverse effect on the Issuer's business, financial condition and results of operations.

***The Group's anti-money laundering and anti-terrorism policies may be circumvented or otherwise not be sufficient to prevent all money laundering or terrorism financing***

Group companies are subject to rules and regulations regarding money laundering and the financing of terrorism. Monitoring compliance with anti-money laundering and anti-terrorism financing rules can put a significant financial burden on banks and other financial institutions and pose significant technical problems. Although the Group believes that its current policies and procedures are sufficient to comply with applicable rules and regulations, it cannot guarantee that its anti-money laundering and anti-terrorism financing policies and procedures will not be circumvented or otherwise not be sufficient to prevent all money laundering or terrorism financing. Any of such events may have severe consequences, including sanctions, fines and notably reputational consequences, which could have a material adverse effect on the Group's financial condition and results of operations.

***The Group is exposed to risks in relation to compliance with anti-corruption laws and regulations and economic sanctions programmes***

The Group is required to comply with the laws and regulations of various jurisdictions where it operates. In particular, the Issuer's operations are subject to various anti-corruption laws, including the U.S. Foreign

## RISK FACTORS

---

Corrupt Practices Act of 1977 and the United Kingdom Bribery Act of 2010, and economic sanction programmes, including those administered by the United Nations, the EU and the United States, including the U.S. Treasury Department's Office of Foreign Assets Control. The anti-corruption laws generally prohibit providing anything of value to government officials for the purposes of obtaining or retaining business or securing any improper business advantage. As part of the Issuer's business, the Issuer may deal with entities the employees of which are considered government officials. In addition, economic sanctions programmes restrict the Issuer's business dealings with certain sanctioned countries, individuals and entities.

Although the Issuer has internal policies and procedures designed to ensure compliance with applicable anti-corruption laws and sanctions regulations, there can be no assurance that such policies and procedures will be sufficient or that the Issuer's employees, directors, officers, partners, agents and service providers will not take actions in violation of our policies and procedures (or otherwise in violation of the relevant anti-corruption laws and sanctions regulations) for which the Issuer or they may be ultimately held responsible. Violations of anti-corruption laws and sanctions regulations could lead to financial penalties being imposed on the Issuer, limits being placed on the Issuer's activities, the Issuer's authorisations and licenses being revoked, damage to the Issuer's reputation and other consequences that could have a material adverse effect on the Issuer's business, results of operations and financial condition. Further, litigations or investigations relating to alleged or suspected violations of anti-corruption laws and sanctions regulations could be costly.

### ***Local regulation may have a material effect on the Issuer's business, financial condition, results of operations and cash flows***

The Issuer's operations are subject to regulatory risks, including the effects of changes in laws, regulations, policies and interpretations, in the various jurisdictions outside Spain where it operates. Regulations in certain jurisdictions where the Issuer operates differ in a number of material respects from equivalent regulations in Spain. For example, local regulations may require the Issuer's subsidiaries and affiliates to meet capital requirements which are different from those applicable to the Issuer as a Spanish bank, they may prohibit certain activities permitted to be undertaken by the Issuer in Spain or they may require certain approvals to be obtained in connection with such subsidiaries and affiliates' activities. Changes in regulations may have a material effect on the Group's business and operations, particularly changes affecting Mexico, the United States, Venezuela, Argentina or Turkey, which are the Group's most significant jurisdictions by assets other than Spain.

Furthermore, the governments in certain regions where the Group operates, have exercised, and continue to exercise, significant influence over the local economy. Governmental actions, including changes in laws or regulations or in the interpretation of existing laws or regulations, concerning the economy and state-owned enterprises, or otherwise affecting the Group's activity, could have a significant effect on the private sector entities in general and on the Issuer's subsidiaries and affiliates in particular. In addition, the Group's activities in emerging economies, such as Venezuela, are subject to a heightened risk of changes in governmental policies, including expropriation, nationalisation, international ownership legislation, interest-rate caps, exchange controls, government restrictions on dividends and tax policies. Any of these risks could have a material adverse effect on the Group's business, financial condition and results of operations.

### **Liquidity and Financial Risks**

***The Issuer has a continuous demand for liquidity to fund its business activities. The Issuer may suffer during periods of market-wide or firm-specific liquidity constraints, and liquidity may not be available to it even if its underlying business remains strong***

Liquidity and funding continues to remain a key area of focus for the Group and the industry as a whole. Like all major banks, the Group is dependent on confidence in the short- and long-term wholesale funding markets. Should the Group, due to exceptional circumstances or otherwise, be unable to continue to source sustainable funding, its ability to fund its financial obligations could be affected.

The Issuer's profitability or solvency could be adversely affected if access to liquidity and funding is constrained or made more expensive for a prolonged period of time. Under extreme and unforeseen

## RISK FACTORS

---

circumstances, such as the closure of financial markets and uncertainty as to the ability of a significant number of firms to ensure they can meet their liabilities as they fall due, the Group's ability to meet its financial obligations as they fall due or to fulfill its commitments to lend could be affected through limited access to liquidity (including government and central bank facilities). In such extreme circumstances the Group may not be in a position to continue to operate without additional funding support, which it may be unable to access. These factors may have a material adverse effect on the Group's solvency, including its ability to meet its regulatory minimum liquidity requirements. These risks can be exacerbated by operational factors such as an over-reliance on a particular source of funding or changes in credit ratings, as well as market-wide phenomena such as market dislocation, regulatory change or major disasters.

In addition, corporate and institutional counterparties may seek to reduce aggregate credit exposures to the Issuer (or to all banks), which could increase the Group's cost of funding and limit its access to liquidity. The funding structure employed by the Group may also prove to be inefficient, thus giving rise to a level of funding cost where the cumulative costs are not sustainable over the longer term. The funding needs of the Group may increase and such increases may be material to the Group's business, financial condition and results of operations.

***Withdrawals of deposits or other sources of liquidity may make it more difficult or costly for the Group to fund its business on favourable terms or cause the Group to take other actions***

Historically, one of the Group's principal sources of funds has been savings and demand deposits. Large-denomination time deposits may, under some circumstances, such as during periods of significant interest rate-based competition for these types of deposits, be a less stable source of deposits than savings and demand deposits. The level of wholesale and retail deposits may also fluctuate due to other factors outside the Group's control, such as a loss of confidence (including as a result of political initiatives, including bail-in and/or confiscation and/or taxation of creditors' funds) or competition from investment funds or other products. The recent introduction of a national tax on outstanding deposits could be negative for the Issuer's activities in Spain. Moreover, there can be no assurance that, in the event of a sudden or unexpected withdrawal of deposits or shortage of funds in the banking systems or money markets in which the Group operates, the Group will be able to maintain its current levels of funding without incurring higher funding costs or having to liquidate certain of its assets. In addition, if public sources of liquidity, such as the ECB extraordinary measures adopted in response to the financial crisis since 2008, are removed from the market, there can be no assurance that the Group will be able to maintain its current levels of funding without incurring higher funding costs or having to liquidate certain of its assets or taking additional deleverage measures.

***Implementation of internationally accepted liquidity ratios might require changes in business practices that affect the profitability of the Issuer's business activities***

The liquidity coverage ratio (**LCR**) is a quantitative liquidity standard developed by the BCBS to ensure that those banking organisations to which this standard is to apply have sufficient high-quality liquid assets to cover expected net cash outflows over a 30-day liquidity stress period. The final standard was announced in January 2013 by the BCBS and, since January 2015, is being phased-in until 2019. Currently the banks to which this standard applies must comply with a minimum LCR requirement of 70 per cent. and gradually increase the ratio by 10 percentage points per year to reach 100 per cent. by January 2019.

The BCBS's net stable funding ratio (**NSFR**) has a time horizon of one year and has been developed to provide a sustainable maturity structure of assets and liabilities such that banks maintain a stable funding profile in relation to their on- and off-balance sheet activities that reduces the likelihood that disruptions to a bank's regular sources of funding will erode its liquidity position in a way that could increase the risk of its failure. The BCBS contemplates that the NSFR, including any revisions, will be implemented by member countries as a minimum standard by 1st January, 2018, with no phase-in scheduled. The EU Banking Reforms propose the introduction of a harmonised binding requirement for the NSFR across the EU that will apply two years after the date of entry into force of the amending regulation at a level of 100 per cent.

Various elements of the LCR and the NSFR, as they are implemented by national banking regulators and complied with by the Issuer may cause changes that affect the profitability of business activities and require

## RISK FACTORS

---

changes to certain business practices, which could expose the Issuer to additional costs (including increased compliance costs) or have a material adverse effect on the Issuer's business, financial condition or results of operations. These changes may also cause the Issuer to invest significant management attention and resources to make any necessary changes.

***The Group's businesses are subject to inherent risks concerning borrower and counterparty credit quality which have affected and are expected to continue to affect the recoverability and value of assets on the Group's balance sheet***

The Group has exposures to many different products, counterparties and obligors and the credit quality of its exposures can have a significant effect on the Group's earnings. Adverse changes in the credit quality of the Group's borrowers and counterparties or collateral, or in their behavior or businesses, may reduce the value of the Group's assets, and materially increase the Group's write-downs and provisions for impairment losses. Credit risk can be affected by a range of factors, including an adverse economic environment, reduced consumer and/or government spending, global economic slowdown, changes in the rating of individual counterparties, the debt levels of individual contractual counterparties and the economic environment they operate in, increased unemployment, reduced asset values, increased personal or corporate insolvency levels, reduced corporate profits, changes (and the timing, quantum and pace of these changes) in interest rates, counterparty challenges to the interpretation or validity of contractual arrangements and any external factors of a legislative or regulatory nature. In recent years, the global economic crisis has driven cyclically high bad debt charges.

Non-performing or low credit quality loans have in the past and can continue to negatively affect the Issuer's results of operations. The Issuer cannot assure that it will be able to effectively control the level of the impaired loans in its total loan portfolio. At present, default rates are partly cushioned by low rates of interest which have improved customer affordability, but the risk remains of increased default rates as interest rates start to rise. The timing quantum and pace of any rise is a key risk factor. All new lending is dependent on the Group's assessment of each customer's ability to pay, and there is an inherent risk that the Group has incorrectly assessed the credit quality or willingness of borrowers to pay, possibly as a result of incomplete or inaccurate disclosure by those borrowers or as a result of the inherent uncertainty that is involved in the exercise of constructing models to estimate the true risk of lending to counterparties. The Group estimates and establishes reserves for credit risks and potential credit losses inherent in its credit exposure. This process, which is critical to the Group's results and financial condition, requires difficult, subjective and complex judgments, including forecasts of how macro-economic conditions might impair the ability of borrowers to repay their loans. As is the case with any such assessments, there is always a risk that the Group will fail to adequately identify the relevant factors or that it will fail to estimate accurately the effect of these identified factors, which could have a material adverse effect on the Group's business, financial condition or results of operations.

***The Group's business is particularly vulnerable to volatility in interest rates***

The Group's results of operations are substantially dependent upon the level of its net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Interest rates are highly sensitive to many factors beyond the Group's control, including fiscal and monetary policies of governments and central banks, regulation of the financial sectors in the markets in which it operates, domestic and international economic and political conditions and other factors. Changes in market interest rates, including cases of negative reference rates, can affect the interest rates that the Group receives on its interest-earning assets differently to the rates that it pays for its interest-bearing liabilities. This may, in turn, result in a reduction of the net interest income the Group receives, which could have a material adverse effect on its results of operations.

In addition, the high proportion of loans referenced to variable interest rates makes debt service on such loans more vulnerable to changes in interest rates. In addition, a rise in interest rates could reduce the demand for credit and the Group's ability to generate credit for its clients, as well as contribute to an increase in the credit default rate. As a result of these and the above factors, significant changes or volatility in interest rates could have a material adverse effect on the Group's business, financial condition or results of operations.

## RISK FACTORS

---

### ***The Issuer is dependent on its credit ratings and any reduction of its credit ratings could materially and adversely affect the Group's business, financial condition and results of operations***

The Issuer is rated by various credit rating agencies. The Issuer's credit ratings are an assessment by rating agencies of its ability to pay its obligations when due. Any actual or anticipated decline in the Issuer's credit ratings to below investment grade or otherwise may increase the cost of and decrease the Group's ability to finance itself in the capital markets, secured funding markets (by affecting its ability to replace downgraded assets with better rated ones), interbank markets, through wholesale deposits or otherwise, harm its reputation, require it to replace funding lost due to the downgrade, which may include the loss of customer deposits, and make third parties less willing to transact business with the Group or otherwise materially adversely affect its business, financial condition and results of operations. Furthermore, any decline in the Issuer's credit ratings to below investment grade or otherwise could breach certain agreements or trigger additional obligations under such agreements, such as a requirement to post additional collateral, which could materially adversely affect the Group's business, financial condition and results of operations.

### ***Highly-indebted households and corporations could endanger the Group's asset quality and future revenues***

In recent years, households and businesses have reached a high level of indebtedness, particularly in Spain, which has created increased risk in the Spanish banking system. In addition, the high proportion of loans referenced to variable interest rates makes (i) debt service on such loans more vulnerable to upward movements in interest rates and (ii) the profitability of the loans more vulnerable to interest rate decreases. Highly indebted households and businesses are less likely to be able to service debt obligations as a result of adverse economic events, which could have an adverse effect on the Group's loan portfolio and, as a result, on its financial condition and results of operations. Moreover, the increase in households' and businesses' indebtedness also limits their ability to incur additional debt, reducing the number of new products the Group may otherwise be able to sell to them and limiting the Group's ability to attract new customers who satisfy its credit standards, which could have an adverse effect on the Group's ability to achieve its growth plans.

### ***The Group depends in part upon dividends and other funds from subsidiaries***

Some of the Group's operations are conducted through its financial services subsidiaries. As a result, the Issuer's ability to pay dividends, to the extent the Issuer decides to do so, depends in part on the ability of the Group's subsidiaries to generate earnings and to pay dividends to the Issuer. Payment of dividends, distributions and advances by the Group's subsidiaries will be contingent upon their earnings and business considerations and is or may be limited by legal, regulatory and contractual restrictions. For instance, the repatriation of dividends from the Group's Venezuelan and Argentinean subsidiaries have been subject to certain restrictions and there is no assurance that further restrictions will not be imposed. Additionally, the Issuer's right to receive any assets of any of the Group's subsidiaries as an equity holder of such subsidiaries upon their liquidation or reorganisation, will be effectively subordinated to the claims of subsidiaries' creditors, including trade creditors. The Group also has to comply with increased capital requirements, which could result in the imposition of restrictions or prohibitions on discretionary payments, including the payment of dividends (see “–Increasingly onerous capital requirements may have a material adverse effect on the Issuer's business, financial condition and results of operations”).

## **Business and Industry Risks**

### ***The Group faces increasing competition in its business lines***

The markets in which the Group operates are highly competitive and this trend will likely continue. In addition, the trend towards consolidation in the banking industry has created larger and stronger banks with which the Group must now compete.

The Group also faces competition from non-bank competitors, such as payment platforms, ecommerce businesses, department stores (for some credit products), automotive finance corporations, leasing companies, factoring companies, mutual funds, pension funds, insurance companies, and public debt.

## RISK FACTORS

---

There can be no assurance that this competition will not adversely affect the Group's business, financial condition, cash flows and results of operations.

### ***The Group faces risks related to its acquisitions and divestitures***

The Group's mergers and acquisitions activity involves divesting its interests in some businesses and strengthening other business areas through acquisitions. The Group may not complete these transactions in a timely manner, on a cost-effective basis or at all. Even though the Group reviews the companies it plans to acquire, it is generally not feasible for these reviews to be complete in all respects. As a result, the Group may assume unanticipated liabilities, or an acquisition may not perform as well as expected. In addition, transactions such as these are inherently risky because of the difficulties of integrating people, operations and technologies that may arise. There can be no assurance that any of the businesses the Group acquires can be successfully integrated or that they will perform well once integrated. Acquisitions may also lead to potential write-downs due to unforeseen business developments that may adversely affect the Group's results of operations.

The Group's results of operations could also be negatively affected by acquisition or divestiture-related charges, amortisation of expenses related to intangibles and charges for impairment of long-term assets. The Group may be subject to litigation in connection with, or as a result of, acquisitions or divestitures, including claims from terminated employees, customers or third parties, and the Group may be liable for future or existing litigation and claims related to the acquired business or divestiture because either the Group is not indemnified for such claims or the indemnification is insufficient. These effects could cause the Group to incur significant expenses and could materially adversely affect its business, financial condition, cash flows and results of operations.

### ***The Group is party to lawsuits, tax claims and other legal proceedings***

Due to the nature of the Group's business, the Issuer and its subsidiaries are involved in litigation, arbitration and regulatory proceedings in jurisdictions around the world (including proceedings on the potential retroactivity of compensation payable to customers regarding certain mortgages clauses), the financial outcome of which is unpredictable, particularly where the claimants seek unspecified or undeterminable damages, or where the cases argue novel legal theories, involve a large number of parties or are at early stages of discovery. An adverse outcome or settlement in these proceedings could result in significant costs and may have a material adverse effect on the Group's business, financial condition, cash flows, results of operations and reputation. In addition, responding to the demands of litigation may divert management's time and attention and financial resources. While the Group believes that it has provisioned such risks appropriately based on the opinions and advice of its legal advisors and in accordance with applicable accounting rules, it is possible that losses resulting from such risks, if proceedings are decided in whole or in part adversely to the Group, could exceed the amount of provisions made for such risks.

### ***The Group's ability to maintain its competitive position depends significantly on its international operations, which expose the Group to foreign exchange, political and other risks in the countries in which it operates, which could cause an adverse effect on its business, financial condition and results of operations***

The Group operates in various countries and its overall success as a global business depends upon its ability to succeed in differing economic, social and political conditions. The Group is particularly sensitive to developments in Mexico, the United States, Turkey and Argentina, which represented 13.26 per cent., 11.53 per cent., 11.87 per cent. and 1.03 per cent. of the Group's assets as at 31st December, 2015, respectively.

The Group is confronted with different legal and regulatory requirements in many of the jurisdictions in which it operates. See “—Legal, Regulatory and Compliance Risks—Local regulation may have a material effect on the Issuer's business, financial condition, results of operations and cash flows.”. These include, but are not limited to, different tax regimes and laws relating to the repatriation of funds or nationalisation or expropriation of assets. The Group's international operations may also expose it to risks and challenges which its local competitors may not be required to face, such as exchange rate risk, difficulty in managing a local

## RISK FACTORS

---

entity from abroad, political risk which may be particular to foreign investors and limitations on the distribution of dividends.

The Group's presence in locations such as the Latin American markets or Turkey requires it to respond to rapid changes in market conditions in these countries and exposes the Group to increased risks relating to emerging markets. See “*—Macroeconomic Risks—The Group may be materially adversely affected by developments in the emerging markets where it operates.*”. There can be no assurance that the Group will succeed in developing and implementing policies and strategies that are effective in each country in which it operates or that any of the foregoing factors will not have a material adverse effect on its business, financial condition and results of operations.

***The Issuer is party to a shareholders' agreement with Doğuř Holding A. ř., among other shareholders, in connection with Garanti which may affect the Issuer's ability to achieve the expected benefits from its interest in Garanti***

On 1st November, 2010, the Issuer entered into a shareholders' agreement with Doğuř Holding A.ř., Doğuř Nakliyat ve Ticaret A.ř. and Doğuř Arařtırma Geliřtirme ve Müşavirlik Hizmetleri A.ř. (the **Doğuř Group**), in connection with the acquisition of its initial interest in Garanti (the **original SHA**). On 19th November, 2014, the Issuer and the Doğuř Group entered into an agreement that amends and restates the original SHA and which came into force upon completion of the Issuer's acquisition of an additional 14.89 per cent. interest in Garanti (the **amended and restated SHA**), bringing the Group's total shareholding in Garanti to 39.9 per cent.

The amended and restated SHA allows the Issuer to appoint the Chairman of Garanti's board of directors, the majority of its members and Garanti's CEO, but provides that certain reserved matters must be implemented or approved (either at a meeting of the shareholders or of the board of directors) only with the consent of each party. For example, for so long as the Doğuř Group owns shares representing over 9.95 per cent. of the share capital of Garanti, the disposal or discontinuance of, or material changes to, any line of business or business entity within the Garanti group that has a value in excess of 25 per cent. of the Garanti group's total net assets in one financial year, will require the Doğuř Group's consent.

If the Issuer and the Doğuř Group are unable to agree on such reserved matters Garanti's business, financial condition and results of operations may be adversely affected and the Issuer may fail to achieve the expected benefits from its interest in Garanti. In addition, due to the Issuer's and Garanti's association with the Doğuř Group, which is one of the largest Turkish conglomerates with business interests in the financial services, construction, tourism and automotive sectors, any financial reversal, negative publicity or other adverse circumstance relating to the Doğuř Group could adversely affect Garanti or the Issuer.

***Weaknesses or failures in the Group's internal processes, systems and security could materially adversely affect its results of operations, financial condition or prospects, and could result in reputational damage***

Operational risks, through inadequate or failed internal processes, systems (including financial reporting and risk monitoring processes) or security, or from people-related or external events, including the risk of fraud and other criminal acts carried out by Group employees or against Group companies, are present in the Group's businesses. These businesses are dependent on processing and reporting accurately and efficiently a high volume of complex transactions across numerous and diverse products and services, in different currencies and subject to a number of different legal and regulatory regimes. Any weakness in these internal processes, systems or security could have an adverse effect on the Group's results, the reporting of such results, and on the ability to deliver appropriate customer outcomes during the affected period. In addition, any breach in security of the Group's systems could disrupt its business, result in the disclosure of confidential information and create significant financial and legal exposure for the Group. Although the Group devotes significant resources to maintain and regularly update its processes and systems that are designed to protect the security of its systems, software, networks and other technology assets, there is no assurance that all of its security measures will provide absolute security. Any damage to the Group's reputation (including to customer confidence) arising from actual or perceived inadequacies, weaknesses or failures in its systems,

## RISK FACTORS

---

processes or security could have a material adverse effect on its business, financial condition and results of operations.

Notwithstanding anything in this risk factor, this risk factor should not be taken as implying that the Issuer will be unable to comply with its obligations as a company with securities admitted to the Official List.

***The financial industry is increasingly dependent on information technology systems, which may fail, may not be adequate for the tasks at hand or may no longer be available***

Banks and their activities are increasingly dependent on highly sophisticated information technology (IT) systems. IT systems are vulnerable to a number of problems, such as software or hardware malfunctions, computer viruses, hacking and physical damage to vital IT centres. IT systems need regular upgrading and banks, including the Issuer, may not be able to implement necessary upgrades on a timely basis or upgrades may fail to function as planned. Furthermore, failure to protect financial industry operations from cyber-attacks could result in the loss or compromise of customer data or other sensitive information. These threats are increasingly sophisticated and there can be no assurance that banks will be able to prevent all breaches and other attacks on its IT systems. In addition to costs that may be incurred as a result of any failure of IT systems, banks, including the Issuer could face fines from bank regulators if they fail to comply with applicable banking or reporting regulations.

***The Issuer's financial statements are based in part on assumptions and estimates which, if inaccurate, could cause material misstatement of the results of its operations and financial position***

The preparation of financial statements in accordance with EU-IFRS requires the use of estimates. It also requires management to exercise judgment in applying relevant accounting policies. The key areas involving a higher degree of judgment or complexity, or areas where assumptions are significant to the consolidated and individual financial statements, include credit impairment charges for amortised cost assets, impairment and valuation of available-for-sale investments, calculation of income and deferred tax, fair value of financial instruments, valuation of goodwill and intangible assets, valuation of provisions and accounting for pensions and post-retirement benefits. There is a risk that if the judgment exercised or the estimates or assumptions used subsequently turn out to be incorrect then this could result in significant loss to the Group, beyond that anticipated or provided for, which could have an adverse effect on the Group's business, financial condition and results of operations.

Observable market prices are not available for many of the financial assets and liabilities that the Group holds at fair value and a variety of techniques to estimate the fair value are used. Should the valuation of such financial assets or liabilities become observable, for example as a result of sales or trading in comparable assets or liabilities by third parties, this could result in a materially different valuation to the current carrying value in the Group's financial statements.

The further development of standards and interpretations under EU-IFRS could also significantly affect the results of operations, financial condition and prospects of the Group.

## RISKS RELATED TO EARLY INTERVENTION AND RESOLUTION

**The Notes may be subject to the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. Other powers contained in Law 11/2015 could materially affect the rights of the Noteholders under, and the value of, any Notes**

The BRRD (which has been implemented in Spain through Law 11/2015 and RD 1012/2015) is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in unsound or failing credit institutions or investment firms (each an **institution**) so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system. The BRRD further provides that any extraordinary public financial support through additional financial stabilisation tools is only to be used by a Member State as a last resort, after

having assessed and exploited the below resolution tools to the maximum extent possible whilst maintaining financial stability.

In accordance with Article 20 of Law 11/2015, an institution will be considered as failing or likely to fail in any of the following circumstances: (i) it is, or is likely in the near future to be, in significant breach of its solvency or any other requirements necessary for maintaining its authorisation; (ii) its assets are, or are likely in the near future to be, less than its liabilities; (iii) it is, or is likely in the near future to be, unable to pay its debts as they fall due; or (iv) it requires extraordinary public financial support (except in limited circumstances). The determination that an institution is no longer viable may depend on a number of factors which may be outside of that institution's control.

As provided in the BRRD, Law 11/2015 contains four resolution tools and powers which may be used alone or in combination where the FROB, the SRM or, as the case may be and according to Law 11/2015, the Bank of Spain or the Spanish Securities Market Commission or any other entity with the authority to exercise any such tools and powers from time to time (each, a **Relevant Spanish Resolution Authority**) as appropriate, considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest. The four resolution tools are: (i) sale of business - which enables resolution authorities to direct the sale of the institution or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the institution to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control), which may limit the capacity of the institution to meet its repayment obligations; (iii) asset separation - which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in - by which the Relevant Spanish Resolution Authority may exercise the Spanish Bail-in Power (as defined below). This includes the ability of the Relevant Spanish Resolution Authority to write down and/or to convert into equity or other securities or obligations (which equity, securities and obligations could also be subject to any future application of the Spanish Bail-in Power) certain unsecured debt claims including Senior Notes and Subordinated Notes.

The **Spanish Bail-in Power** is any write-down, conversion, transfer, modification, or suspension power existing from time to time under, and exercised in compliance with any laws, regulations, rules or requirements in effect in Spain, relating to the transposition of the BRRD, as amended from time to time, including, but not limited to (i) Law 11/2015, as amended from time to time, (ii) RD 1012/2015, as amended from time to time, (iii) the SRM Regulation, as amended from time to time, and (iv) any other instruments, rules or standards made in connection with either (i), (ii) or (iii), pursuant to which any obligation of an institution can be reduced (which may result in the reduction of the relevant claim to zero), cancelled, modified, transferred or converted into shares, other securities, or other obligations of such institution or any other person (or suspended for a temporary period).

In accordance with Article 48 of Law 11/2015 (and subject to any exclusions that may be applied by the Relevant Spanish Resolution Authority under Article 43 of Law 11/2015), in the case of any application of the Spanish Bail-in Power, the sequence of any resulting write-down or conversion by the Relevant Spanish Resolution Authority shall be in the following order: (i) CET1 instruments; (ii) Additional Tier 1 instruments; (iii) Tier 2 instruments (including Tier 2 Subordinated Notes); (iv) other subordinated claims that do not qualify as Additional Tier 1 capital or Tier 2 capital (such as Senior Subordinated Notes); and (v) the eligible senior claims prescribed in Article 41 of Law 11/2015 (such as Senior Notes).

In addition to the Spanish Bail-in Power, the BRRD and Law 11/2015 provide for resolution authorities to have the further power to permanently write-down or convert into equity capital instruments such as Tier 2 Subordinated Notes at the point of non-viability (**Non-Viability Loss Absorption**) of an institution or a group. The point of non-viability of an institution is the point at which the Relevant Spanish Resolution Authority determines that the institution meets the conditions for resolution or will no longer be viable unless the relevant capital instruments (such as the Tier 2 Subordinated Notes) are written down or converted into equity or extraordinary public support is to be provided and without such support the Relevant Spanish

## RISK FACTORS

---

Resolution Authority determines that the institution would no longer be viable. The point of non-viability of a group is the point at which the group infringes or there are objective elements to support a determination that the group, in the near future, will infringe its consolidated solvency requirements in a way that would justify action by the Relevant Spanish Resolution Authority in accordance with article 38.3 of Law 11/2015. Non-Viability Loss Absorption may be imposed prior to or in combination with any exercise of the Spanish Bail-in Power or any other resolution tool or power (where the conditions for resolution referred to above are met).

Any application of the Spanish Bail-in Power or Non-Viability Loss Absorption under the BRRD shall be in accordance with the hierarchy of claims in normal insolvency proceedings (unless otherwise provided by Applicable Banking Regulations, as defined in Condition 3(b)). Accordingly, the impact of such application on holders of Noteholders will depend on their ranking in accordance with such hierarchy, including any priority given to other creditors such as depositors.

To the extent any resulting treatment of Noteholders pursuant to the exercise of the Spanish Bail-in Power or Non-Viability Loss Absorption (in the case of Tier 2 Subordinated Notes) is less favourable than would have been the case under such hierarchy in normal insolvency proceedings, a Noteholder would have a right to compensation under the BRRD based on an independent valuation of the institution. Any such compensation is unlikely to compensate that Noteholder for the losses it has actually incurred and there is likely to be a considerable delay in the recovery of such compensation. Compensation payments (if any) are also likely to be made considerably later than when amounts may otherwise have been due under the Notes.

The powers set out in the BRRD as implemented through Law 11/2015 and RD 1012/2015 impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors. Pursuant to Law 11/2015 holders of Notes may be subject to, among other things, a write-down and/or conversion into equity or other securities or obligations of such Notes on any application of the Spanish Bail-in Power and, in the case of Tier 2 Subordinated Notes, may be subject to any Non-Viability Loss Absorption. The exercise of any such powers (or any of the other resolution powers and tools) may result in such Noteholders losing some or all of their investment or otherwise having their rights under such Notes adversely affected. For example, the Spanish Bail-in Power and Non-Viability Loss Absorption may be exercised in such a manner as to result in Noteholders receiving a different security, which may be worth significantly less than the Notes. Such application could also involve modifications to, or the disapplication of, provisions in the terms and conditions of the Notes, including alteration of the principal amount or any interest payable on the Notes, the maturity date or any other dates on which payments may be due, as well as the suspension of payments for a certain period. As a result, the exercise of the Spanish Bail-in Power with respect to the Notes and/or Non-Viability Loss Absorption (in the case of Tier 2 Subordinated Notes) or the taking by an authority of any other action, or any suggestion that the exercise or taking of any such action may happen, could materially adversely affect the rights of Noteholders, the market price or value or trading behaviour of any Notes and/or the ability of the Issuer to satisfy its obligations under any Notes.

The exercise of the Spanish Bail-in Power and/or (in the case of Tier 2 Subordinated Notes) Non-Viability Loss Absorption by the Relevant Spanish Resolution Authority with respect to the Notes is likely to be inherently unpredictable and may depend on a number of factors which may also be outside of the Issuer's control. In addition, as the Relevant Spanish Resolution Authority will retain an element of discretion, holders of the Notes may not be able to refer to publicly available criteria in order to anticipate any potential exercise of any such Spanish Bail-in Power and/or (in the case of Tier 2 Subordinated Notes) Non-Viability Loss Absorption. Because of this inherent uncertainty, it will be difficult to predict when, if at all, the exercise of any such powers by the Relevant Spanish Resolution Authority may occur.

This uncertainty may adversely affect the value of the Notes. The price and trading behaviour of the Notes may be affected by the threat of a possible exercise of any power under Law 11/2015 (including any early intervention measure before any resolution) or any suggestion of such exercise, even if the likelihood of such exercise is remote. Moreover, the Relevant Spanish Resolution Authority may exercise any such powers without providing any advance notice to the holders of the Notes.

In addition, the EBA's preparation of certain regulatory technical standards and implementing technical standards to be adopted by the European Commission and certain other guidelines is pending. These acts

## RISK FACTORS

---

could be potentially relevant to determining when or how a Relevant Spanish Resolution Authority may exercise the Spanish Bail-in Power and impose Non-Viability Loss Absorption. The pending acts include guidelines on the treatment of shareholders in bail-in or the write-down and conversion of capital instruments, and on the rate of conversion of debt to equity or other securities or obligations in any bail-in. No assurance can be given that, once adopted, these standards will not be detrimental to the rights of a Noteholder under, and the value of a Noteholder's investment in, the Notes.

### **Noteholders may not be able to exercise their rights on an event of default in the event of the adoption of any early intervention or resolution measure under Law 11/2015**

The Issuer may be subject to a procedure of early intervention or resolution pursuant to the BRRD as implemented through Law 11/2015 and RD 1012/2015 if the Issuer or its group of consolidated credit entities is in breach (or due, among other things, to a rapidly deteriorating financial condition, it is likely in the near future to be in breach) of applicable regulatory requirements relating to solvency, liquidity, internal structure or internal controls or the conditions for resolution referred to above are met (see *“The Notes may be subject to the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. Other powers contained in Law 11/2015 could materially affect the rights of the Noteholders under, and the value of, any Notes”*).

Pursuant to Law 11/2015 the adoption of any early intervention or resolution procedure shall not itself constitute an event of default or entitle any counterparty of the Issuer to exercise any rights it may otherwise have in respect thereof and any provision providing for such rights shall further be deemed not to apply. However, this does not limit the ability of a counterparty to declare any event of default and exercise its rights accordingly where an event of default arises either before or after the exercise of any such early intervention or resolution procedure and does not necessarily relate to the exercise of any relevant measure or power which has been applied pursuant to Law 11/2015.

Any enforcement by a Noteholder of its rights under the Notes upon the occurrence of an Event of Default following the adoption of any early intervention or resolution procedure will, therefore, be subject to the relevant provisions of the BRRD and Law 11/2015 in relation to the exercise of the relevant measures and powers pursuant to such procedure, including the resolution tools and powers referred to above (see *“The Notes may be subject to the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. Other powers contained in Law 11/2015 could materially affect the rights of the Noteholders under, and the value of, any Notes”*). Any claims on the occurrence of an Event of Default will consequently be limited by the application of any measures pursuant to the provisions of Law 11/2015. There can be no assurance that the taking of any such action would not adversely affect the rights of Noteholders, the price or value of their investment in the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes and the enforcement by a holder of any rights it may otherwise have on the occurrence of any Event of Default may be limited in these circumstances.

### **RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES**

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features:

#### **If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return**

An optional redemption feature (including any redemption of the Notes for tax reasons pursuant to Condition 6(b) and, in the case of Tier 2 Subordinated Notes, upon the occurrence of a Capital Event or, in the case of Senior Subordinated Notes, upon the occurrence of an Eligible Liability Event (each as defined in Condition 6(d) and 6(e), respectively, as the case may be) may limit the market value of the Notes. During any period when the Issuer may elect to redeem Notes, or during which there is an actual or perceived increased likelihood that the Issuer may elect to redeem the Notes, the market value of those Notes generally will not

## RISK FACTORS

---

rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when their cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

It is not possible to predict whether or not any further change in the laws or regulations of Spain, Applicable Banking Regulations or, in the case of a redemption of the Notes for tax reasons, the application or binding official interpretation thereof, or any of the other events referred to above, will occur and so lead to the circumstances in which the Issuer is able to elect to redeem the Notes, and if so whether or not the Issuer will elect to exercise such option to redeem the Notes or, in the case of Subordinated Notes, as applicable, any prior consent of the Regulator required for such redemption will be given. There can be no assurances that, in the event of any such early redemption, Noteholders will be able to reinvest the proceeds at a rate that is equal to the return on the Notes.

**If the Issuer has the right to convert the interest rate on any Notes from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned**

Fixed/Floating Rate Notes are Notes which may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the Issuer has the right to effect such a conversion, this will affect the secondary market in, and the market value of, the Notes since the Issuer may be expected to convert the rate when it is likely to result in a lower overall cost of borrowing for the Issuer. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing market rates.

**The interest rate on Fixed Reset Notes will reset on each Reset Date, which can be expected to affect interest payments on an investment in Fixed Reset Notes and could affect the market value of Fixed Reset Notes**

Fixed Reset Notes will initially bear interest at the Initial Interest Rate (as specified in the applicable Final Terms) until (but excluding) the Reset Date (as specified in the applicable Final Terms). On the Reset Date and each Subsequent Reset Date (as specified in the applicable Final Terms) (if any) thereafter, the interest rate will be reset to the sum of the applicable Mid-Swap Rate and the Reset Margin (each as specified in the applicable Final Terms) as determined by the Principal Paying Agent on the relevant Reset Determination Date (as defined in Condition 4(b)) (each such interest rate, a **Subsequent Reset Rate**). The Subsequent Reset Rate for any Reset Period could be less than the Initial Interest Rate or the Subsequent Reset Rate for prior Reset Periods and could affect the market value of an investment in the Fixed Reset Notes.

**Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates**

The market values of Notes issued at a substantial discount (such as Zero Coupon Notes) or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

**Claims of Holders under the Senior Notes are effectively junior to those of certain other creditors**

The Senior Notes are unsecured and unsubordinated obligations of the Issuer. The Senior Notes will rank equally with any of the Issuer's other outstanding unsecured and unsubordinated obligations, present and

future, but, (a) subject to the exercise of any power pursuant to Law 11/2015, RD 1012/2015 or other applicable laws relating to recovery and resolution of credit institutions and investment firms in Spain and (b) in the event of insolvency, only to the extent permitted by the Insolvency Law or other laws relating to or affecting the enforcement of creditor's rights in Spain.

Upon insolvency, the obligations of the Issuer under the Senior Notes will be effectively subordinated to all of the Issuer's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and other obligations that rank senior under Spanish law (including, among other things, any deposits for the purposes of Additional Provision 14.1 of Law 11/2015 and any claims against the insolvency estate). The Senior Notes are also structurally subordinated to all indebtedness of subsidiaries of the Issuer insofar as any right of the Issuer to receive any assets of such companies upon their winding-up will be effectively subordinated to the claims of the creditors of those companies in the winding-up.

Moreover, the BRRD and Law 11/2015 contemplate that Senior Notes may be subject to the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. This may involve the variation of the terms of the Senior Notes or a change in their form, if necessary, to give effect to, the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. See *"Risks related to Early Intervention and Resolution —The Notes may be subject to the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. Other powers contained in Law 11/2015 could materially affect the rights of the Noteholders under, and the value of, any Notes"*.

### **An investor in Subordinated Notes assumes an enhanced risk of loss in the event of the Issuer's insolvency**

The Issuer's obligations under the Subordinated Notes will be unsecured and subordinated and will rank junior to all unsubordinated obligations of the Issuer and other obligations that rank senior under Spanish law. Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a greater risk that an investor in Subordinated Notes will lose all or some of its investment should the Issuer become (i) subject to resolution under the BRRD and the Subordinated Notes become subject to the application of the Spanish Bail-in Power (including, in the case of Tier 2 Subordinated Notes, Non-Viability Loss Absorption) or (ii) insolvent.

In the case of any exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority, the sequence of any resulting write-down or conversion of the Notes under Article 48 of the BRRD and Article 48 of Law 11/2015 provides for Tier 2 Subordinated Notes (for so long as the obligations of the Issuer in respect of the Tier 2 Subordinated Notes constitute a Tier 2 Instrument of the Issuer) to be written-down or converted into equity or other securities or obligations prior to Senior Subordinated Notes and for Senior Subordinated Notes to be written-down or converted into equity or other securities or obligations prior to any write-down or conversion of Senior Notes and any other relevant unsubordinated obligations of the Issuer. In addition, Tier 2 Subordinated Notes may be subject to Non-Viability Loss Absorption, which may be imposed prior to or in combination with any exercise of the Spanish Bail-in Power. While any such write-down or conversion of Tier 2 Subordinated Notes, Senior Subordinated Notes, Senior Notes and any other such unsubordinated obligations shall be implemented in accordance with the hierarchy of claims in normal insolvency proceedings (unless otherwise provided by Applicable Banking Regulations), even if grounds for compensation could be established, compensation may not be available under the BRRD to any holders of capital instruments subject to any write-down or conversion and even if available would only take the form of shares, other securities or other obligations of the Issuer, the Group or another person. See *"Risks related to Early Intervention and Resolution - The Notes may be subject to the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. Other powers contained in Law 11/2015 could materially affect the rights of the Noteholders under, and the value of, any Notes"*.

**Subordinated Notes may not be redeemed prior to maturity at the option of Noteholders, including in the event of non-payment of principal or interest and the redemption of Tier 2 Subordinated Notes pursuant to an Issuer Call is subject to certain conditions**

Pursuant to the CRR, the Issuer is prohibited from including in the terms and conditions of any Tier 2 Subordinated Notes terms that would oblige it to redeem such Tier 2 Subordinated Notes prior to their stated maturity at the option or request of holders of the Tier 2 Subordinated Notes. Additionally, in accordance with Article 45 of the BRRD and Article 38 of RD 1012/2015, terms of instruments that provide for any early redemption of that instrument at the option of the holder could limit its eligibility for MREL purposes. As a result, the terms and conditions of the Subordinated Notes do not include provisions allowing for early redemption of Subordinated Notes at the option of Noteholders. Furthermore, holders of Subordinated Notes will not have any rights under the terms and conditions of the Subordinated Notes to request the early redemption of such Subordinated Notes in the event of any failure by the Issuer to pay principal or interest in respect of such Subordinated Notes.

Articles 77 and 78 of the CRR set out the conditions for the redemption of Tier 2 Subordinated Notes, which include the prior consent of the Regulator. Such consent will be given only if either of the following conditions is met:

- (i) on or before such redemption of the Tier 2 Subordinated Notes, the Issuer replaces the Tier 2 Subordinated Notes with instruments qualifying as Tier 2 capital of an equal or higher quality on terms that are sustainable for the income capacity of the Issuer; or
- (ii) the Issuer has demonstrated to the satisfaction of the Regulator that its Tier 1 capital and Tier 2 capital would, following such redemption, exceed the capital ratios required under CRD IV by a margin that the Regulator may consider necessary on the basis set out in CRD IV.

### **Risks relating to Notes denominated in Renminbi**

Set out below is a description of the principal risks which may be relevant to an investor in Notes denominated in Renminbi (**Renminbi Notes**):

***Renminbi is not freely convertible and there are significant restrictions on remittance of Renminbi into and out of the PRC, which may adversely affect the liquidity of investments in Renminbi Notes***

Renminbi is not freely convertible as of the date of this Offering Circular. The government of the PRC (the **PRC Government**) continues to regulate conversion between Renminbi and foreign currencies despite significant reduction in the control by the PRC Government in recent years over trade transactions involving the import and export of goods and services, as well as other frequent routine foreign exchange transactions. These transactions are known as current account items. Participating banks in Hong Kong and a number of other jurisdictions (the **Applicable Jurisdictions**) have been permitted to engage in the settlement of current account trade transactions in Renminbi.

On 13th October, 2011, the People's Bank of China (the **PBoC**) promulgated the "Administrative Measures on Renminbi Settlement of Foreign Direct Investment" (the **PBoC FDI Measures**) as part of the implementation of the PBoC's detailed foreign direct investment (**FDI**) accounts administration system. The system covers almost all aspects in relation to FDI, including capital injections, payments for the acquisition of PRC domestic enterprises, repatriation of dividends and other distributions, as well as Renminbi denominated cross-border loans. On 14th June, 2012, the PBoC further issued the implementing rules for the PBoC FDI Measures, which provides more detailed rules relating to cross-border Renminbi direct investments and settlement. Under the PBoC FDI Measures, special approval for FDI and shareholder loans from the PBoC, which was previously required, is no longer necessary. In some cases however, post-event filing with the PBoC is still necessary.

On 5th July, 2013, the PBoC promulgated the "Circular on Policies related to Simplifying and Improving Cross-Border Renminbi Business Procedures," which sought to improve the efficiency of the cross-border

## RISK FACTORS

---

Renminbi settlement process and facilitate the use of cross-border Renminbi settlement by banks and enterprises.

On 3rd December, 2013, the Ministry of Commerce of the PRC (**MOFCOM**) promulgated the "Circular on Issues in relation to Cross-border Renminbi Foreign Direct Investment" (the **MOFCOM Circular**), which became effective on 1st January, 2014, to further facilitate FDI by simplifying and streamlining the applicable regulatory framework. Pursuant to the MOFCOM Circular, written approval from the appropriate office of MOFCOM and/or its local counterparts specifying "Renminbi Foreign Direct Investment" and the permitted capital contribution amount is required for each FDI transaction.

Unlike previous MOFCOM regulations on FDI, the MOFCOM Circular has also removed the approval requirement for foreign investors who intend to change the currency of their existing capital contribution from a foreign currency to Renminbi. In addition, the MOFCOM Circular clearly prohibits FDI funds from being used for any investments in securities and financial derivatives (except for investments in PRC listed companies by strategic investors) or for entrustment loans in the PRC.

As the MOFCOM Circular and the PBoC FDI Measures are relatively new circulars, they will be subject to interpretation and application by the relevant authorities in the PRC.

Although from 1st October, 2016, Renminbi will be added to the Special Drawing Rights basket created by the International Monetary Fund, there is no assurance that: (a) the PRC Government will continue to liberalise control over cross-border remittance of Renminbi in the future; (b) that any pilot schemes for Renminbi cross-border utilisation will not be discontinued; or (c) that new regulations in the PRC will not be promulgated which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuer to source Renminbi to finance its obligations under Renminbi Notes.

***There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of Renminbi Notes and the Issuer's ability to source Renminbi outside the PRC to service Renminbi Notes***

As a result of the restrictions imposed by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited.

The PBoC has established a Renminbi clearing and settlement mechanism for participating banks in the Applicable Jurisdictions through settlement agreements with certain banks (each a **RMB Clearing Bank**) to act as the RMB clearing bank in the Applicable Jurisdictions. Notwithstanding these arrangements, the current size of Renminbi-denominated financial assets outside the PRC is limited.

There are restrictions imposed by the PBoC on Renminbi business participating banks in relation to cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBoC. These banks are only allowed to square their open positions with the relevant RMB Clearing Bank after consolidating the Renminbi trade position of banks outside the Applicable Jurisdictions that are in the same bank group of the participating banks concerned with their own trade position, and the relevant RMB Clearing Bank only has access to onshore liquidity support from the PBoC for the purpose of squaring open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporations in relation to cross-border trade settlements. The relevant RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from foreign exchange transactions or conversion services. Where onshore liquidity support from the PBoC is not available, the participating banks will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the settlement agreements will not be terminated or amended so as to have the effect of restricting availability of Renminbi outside the PRC. The

## RISK FACTORS

---

limited availability of Renminbi outside the PRC may affect the liquidity of investments in the Renminbi Notes. To the extent that the Issuer is required to source Renminbi outside the PRC to service the Renminbi Notes, there is no assurance that the Issuer will be able to source Renminbi on satisfactory terms, if at all.

Although the Issuer's primary obligation is to make all payments with respect to Renminbi Notes in Renminbi, where a Renminbi Currency Event is specified in the applicable Final Terms, in the event access to Renminbi becomes restricted to the extent that, by reason of RMB Inconvertibility, RMB Non-Transferability or RMB Illiquidity (each as defined in Condition 5(h)), the Issuer is unable to make any payment in respect of the Renminbi Note in Renminbi, the terms of such Renminbi Notes will permit the Issuer to make payment in U.S. dollars converted at the Spot Rate, all as provided in Condition 5(h). The value of these Renminbi payments in U.S. dollar terms may vary with the prevailing exchange rates in the market place.

### *An investment in Renminbi Notes is subject to exchange rate risks*

The value of the Renminbi against the U.S. dollar and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors. In August 2015, the PBoC implemented changes to the way it calculates the midpoint against the U.S. dollar to take into account market-maker quotes before announcing the daily midpoint. This change, among others that may be implemented, may increase the volatility in the value of Renminbi against other currencies. All payments of interest and principal with respect to Renminbi Notes will be made in Renminbi unless a RMB Currency Event is specified in the applicable Final Terms, and a RMB Currency Event occurs, in which case payment will be made in U.S. dollars. As a result, the value of these Renminbi payments in U.S. dollar or other foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of the Renminbi depreciates against the U.S. dollar or other foreign currencies, then the value of any investment in Renminbi Notes in terms of the U.S. dollar or other applicable foreign currency will decline.

### *An investment in fixed rate Renminbi Notes is subject to interest rate risks*

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. If a Renminbi Note carries a fixed interest rate, then the trading price of such Renminbi Notes will vary with the fluctuations in Renminbi interest rates. If an investor in Renminbi Notes tries to sell such Renminbi Notes then it may receive an offer that is less than the amount invested.

### *Payments in respect of Renminbi Notes will be made to investors in the manner specified in the Conditions*

Investors might be required to provide certification and other information (including Renminbi account information) in order to be allowed to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in Hong Kong or such other RMB Settlement Centre(s) as may be specified in the applicable Final Terms. All Renminbi payments to investors in respect of Renminbi Notes will be made solely (i) for so long as Renminbi Notes are represented by Global Notes held with the common depositary or common safekeeper, as the case may be, for Euroclear Bank S.A./N.V. (**Euroclear**) and Clearstream Banking, S.A. (**Clearstream, Luxembourg**), by transfer to a Renminbi bank account maintained in Hong Kong or any such other RMB Settlement Centre(s) in accordance with prevailing Euroclear and/or Clearstream, Luxembourg rules and procedures, or (ii) for so long as Renminbi Notes are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong or such other RMB Settlement Centre(s) in accordance with prevailing rules and regulations. Other than as described in Condition 5(h), the Issuer cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC).

## RISKS RELATED TO NOTES GENERALLY

Set out below is a brief description of certain risks relating to the Notes generally:

### Spanish tax rules

Article 44 of RD 1065/2007 sets out the reporting obligations applicable to preference shares and debt instruments issued under Law 10/2014. The procedures apply to interest deriving from preference shares and debt instruments to which Law 10/2014 refers, including debt instruments issued at a discount for a period equal to or less than twelve months.

According to the literal wording of Article 44.5 of RD 1065/2007 income derived from securities originally registered with the entities that manage clearing systems located outside Spain, and are recognised by Spanish law or by the law of another OECD country (such as the Depository Trust Company (**DTC**), Euroclear or Clearstream, Luxembourg), will be paid free of Spanish withholding tax provided that the Paying Agent appointed by the Issuer submits a statement to the Issuer, the form of which is included in the Agency Agreement, with the following information:

- (i) identification of the securities;
- (ii) payment date;
- (iii) total amount of income paid on the relevant date; and
- (iv) total amount of the income corresponding to each clearing system located outside Spain.

These obligations refer to the total amount paid to investors through each foreign clearing house.

In accordance with Article 44 of RD 1065/2007 the relevant Paying Agent should provide the Issuer with the statement on the business day immediately prior to each interest payment date. The statement must reflect the situation at the close of business of that same day. In the event that on such date, the entity(ies) obliged to provide the declaration fail to do so, the Issuer or the Paying Agent on its behalf will make a withholding at the general rate of 19 per cent. on the total amount of the return on the relevant Notes otherwise payable to such entity.

Notwithstanding the foregoing, the Issuer has agreed that in the event withholding tax should be required by law, the Issuer shall pay such additional amounts as would have been received had no such withholding or deduction been required, except as provided in Condition 7 and as otherwise described in this Offering Circular.

As at the date of this Offering Circular, the Issuer has entered into an agreement with a Tax Certification Agent in order to establish a procedure for the disclosure of information regarding Noteholders who are resident in Spain for tax purposes. Such information will be provided to the Spanish Tax Authorities by the Issuer.

### General

The procedure described in this Offering Circular for the provision of information required by Spanish laws and regulations is a summary only and none of the Issuer or the Dealers assumes any responsibility therefore. In the event that the currently applicable procedures are modified, amended or supplemented by, among other things, any Spanish law, regulation, interpretation or ruling of the Spanish tax authorities, the Issuer will notify the Noteholders of such information procedures and their implications, as the Issuer may be required to apply withholding tax on distributions in respect of the relevant securities if the holders do not comply with such information procedures.

### **The conditions of the Notes contain provisions which may permit their modification without the consent of all investors**

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders

## RISK FACTORS

---

including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

### **Substitution of the Issuer**

If the conditions set out in Condition 17 of the Notes are met, the Issuer may, without the consent or sanction of the Noteholders, substitute in its place another company incorporated anywhere in the world as the principal debtor in respect of all obligations arising under or in connection with the Notes (the **Substituted Debtor**). In that case, the Noteholders will assume the risk that the Substituted Debtor may become insolvent or otherwise be unable to make all payments due in respect of the Notes.

### **The rights of Noteholders could be adversely affected by a change in English law or administrative practice**

The Conditions (except for Condition 3) of the Notes are based on English law in effect as at the date of this Offering Circular. No assurance can be given as to the impact of any possible judicial decision or change to Spanish and English law or administrative practice after the date of this Offering Circular and any such change could materially adversely impact the rights of any Noteholders.

### **Reliance on DTC, Euroclear and Clearstream, Luxembourg procedures**

The Regulation S Notes will be represented on issue by a Regulation S Global Note that will be deposited with a common depositary for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the Regulation S Global Note, investors will not be entitled to receive Notes in definitive form. Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the beneficial interests in the Regulation S Global Note. While the Notes are represented by the Regulation S Global Note, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg and their respective participants.

The Rule 144A Notes will be represented on issue by a Rule 144A Global Note that will be deposited with a nominee for DTC. Except in the circumstances described in the Rule 144A Global Note, investors will not be entitled to receive Notes in definitive form. DTC and its direct and indirect participants will maintain records of the beneficial interests in the Rule 144A Global Note. While the Notes are represented by the Rule 144A Global Note, investors will be able to trade their beneficial interests only through DTC and its participants, including Euroclear and Clearstream, Luxembourg.

While the Notes are represented by the Global Notes, the Issuer will discharge its payment obligation under the Notes by making payments through the relevant clearing systems. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant clearing system and its participants to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in either Global Note.

Holders of beneficial interests in a Global Note will not have a direct right to vote in respect of the Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

### **RISKS RELATED TO THE MARKET GENERALLY**

Set out below is a brief description of the material market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

## RISK FACTORS

---

**An active secondary market in respect of the Notes may never be established or may be illiquid and the market price of the Notes may be subject to factors outside of the Issuer's control, all of which could adversely affect the value at which an investor could sell his Notes**

The Notes may have no established trading market when issued, and one may never develop. If an active trading market does not develop or is not maintained, the market price and liquidity of the Notes may be adversely affected. If a market does develop, it may not be very liquid. The market price of the Notes could also be affected by market conditions more generally and other factors outside of the Issuer's control and unrelated to the Group's business, financial condition and results of operations. Therefore, investors may not be able to sell their Notes at a particular time or may not be able to sell their Notes at a favourable price.

Although applications have been made for Notes issued under the Programme to be admitted to the Official List and to trading on the regulated market of the London Stock Exchange, there is no assurance that such applications will be accepted, that any particular issue of Notes will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular issue of Notes. The liquidity of any market for the Notes will depend on a number of factors including:

- the number of holders of the Notes;
- the Issuer's ratings published by major credit rating agencies;
- the Issuer's financial performance;
- the market for similar securities;
- the interest of securities dealers in making a market in the notes; and
- prevailing interest rates.

No assurance can be given that an active market for the Notes will develop or, if developed, that it will continue.

**If an investor holds Notes which are not denominated in the investor's home currency, that investor will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes**

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency and/or the Specified Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

## RISK FACTORS

---

### **The value of Fixed Rate Notes may be adversely affected by movements in market interest rates**

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

### **Credit ratings assigned to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes**

One or more independent credit rating agencies may assign credit ratings to the Notes (including on an unsolicited basis). The ratings may not reflect the potential impact of all risks related to structure and market of the Notes and additional factors discussed above and do not address the price, if any, at which the Notes may be resold prior to maturity (which may be substantially less than the original offering prices of the Notes) and other factors that may affect the value of the Notes. However, real or anticipated changes in the Issuer's credit ratings will generally affect the market value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Offering Circular.

## FORM OF THE NOTES

The Notes of each Series will be in either bearer form, with or without interest coupons attached, or registered form, without interest coupons attached. Bearer Notes will be issued outside the United States in reliance on Regulation S under the Securities Act (**Regulation S**) and Registered Notes will be issued both outside the United States in reliance on the exemption from registration provided by Regulation S and within the United States in reliance on Rule 144A or Regulation D under the Securities Act.

### **Bearer Notes**

Each Tranche of Bearer Notes will be initially issued in the form of a temporary global note (a **Temporary Bearer Global Note**) or a permanent global note (a **Permanent Bearer Global Note**) as indicated in the applicable Final Terms, which, in either case, will:

- (i) if the Global Notes are intended to be issued in new global note (NGN) form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear and Clearstream, Luxembourg; or
- (ii) if the Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depositary for Euroclear and Clearstream, Luxembourg.

Where the Global Notes issued in respect of any Tranche are in NGN form, Euroclear and Clearstream, Luxembourg will be notified as to whether or not such Global Notes are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Notes are to be so held means that the Notes of a particular Tranche are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any time during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg.

Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Note if the Temporary Global Note is not intended to be issued in NGN form) only to the extent that certification of non-U.S. beneficial ownership or certification to the effect that the holder is a U.S. person who purchased in a transaction that did not require registration under the Securities Act and to the effect that such holder is not a United States person, or is a United States person that purchased by or through certain United States financial institutions or is a financial institution purchasing for resale during the restricted period to persons other than United States persons or persons within the United States or its possessions as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Bearer Global Note is issued, interests in such Temporary Bearer Global Note will be exchangeable (free of charge) upon a request as described therein either for (a) interests in a Permanent Bearer Global Note of the same Series or (b) for definitive Bearer Notes of the same Series with, where applicable, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given, provided that purchasers in the United States and certain U.S. persons will not be able to receive definitive Bearer Notes. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note or for definitive Bearer Notes is improperly withheld or refused.

## FORM OF THE NOTES

---

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Bearer Global Note if the Permanent Bearer Global Note is not intended to be issued in NGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Notes with, where applicable, interest coupons and talons attached upon either (a) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) to the Principal Paying Agent as described therein or (b) only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default (as defined in Condition 9) has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available, (iii) if so specified in the applicable Final Terms, the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Bearer Global Note in definitive form or (iv) the Notes are required to be removed from both Euroclear and Clearstream, Luxembourg and no alternative clearing system is available. The Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) or the Issuer, as the case may be, may give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Principal Paying Agent.

The following legend will appear on all Bearer Notes (other than Temporary Global Notes), interest coupons relating to such Notes where TEFRA D is specified in the applicable Final Terms:

**“ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”**

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

### Registered Notes

The Registered Notes of each Tranche offered and sold in reliance on Regulation S, which will be sold to non-U.S. persons outside the United States, will initially be represented by a global note in registered form (a **Regulation S Global Note**). Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Regulation S Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in Condition 2 and may not be held otherwise than through Euroclear or Clearstream, Luxembourg and such Regulation S Global Note will bear a legend describing such restrictions on transfer.

The Registered Notes of each Tranche may only be offered and sold in the United States or to U.S. persons in private transactions (a) to “qualified institutional buyers” within the meaning of Rule 144A under the Securities Act (**QIBs**) or (b) to “accredited investors” (as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act that are institutions (**Institutional Accredited Investors**)) who agree to purchase the Notes for their own account and not with a view to the distribution thereof. The Registered Notes of each Tranche sold to QIBs will be represented by a global note in registered form (a **Rule 144A Global Note** and, together with a Regulation S Global Note, the **Registered Global Notes**).

## FORM OF THE NOTES

---

Registered Global Notes will either (a) be deposited with a custodian for, and registered in the name of a nominee of, DTC for the accounts of Euroclear and Clearstream, Luxembourg or (b) be deposited with a common depository or common safekeeper, as the case may be, for Euroclear and Clearstream, Luxembourg, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg or in the name of a nominee if the common safekeeper, as specified in the applicable Final Terms. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

Registered Global Notes issued in respect of any Tranche and deposited with one of the ICSDs as common safekeeper, and registered in the name of a nominee of one of the ICSDs acting as common safekeeper, that is, held under the NSS, are intended to be held in a manner which would allow Eurosystem eligibility. This does not necessarily mean that the Notes of such Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any time during their life, as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

The Registered Notes of each Tranche sold to Institutional Accredited Investors will be in definitive form, registered in the name of the holder thereof (**Definitive IAI Registered Notes**). Unless otherwise set forth in the applicable Final Terms, Definitive IAI Registered Notes will be issued only in minimum denominations of U.S.\$200,000 and integral multiples of U.S.\$1,000 in excess thereof (or the approximate equivalents in the applicable Specified Currency). Definitive IAI Registered Notes will be subject to the restrictions on transfer set forth therein and will bear the restrictive legend described under “*Subscription and Sale and Transfer and Selling Restrictions*”. Institutional Accredited Investors that hold Definitive IAI Registered Notes may elect to hold such Notes through DTC, but transferees acquiring the Notes in transactions exempt from Securities Act registration pursuant to Regulation S or Rule 144 under the Securities Act (if available) may do so upon satisfaction of the requirements applicable to such transfer as described under “*Subscription and Sale and Transfer and Selling Restrictions*”. The Rule 144A Global Note and the Definitive IAI Registered Notes will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 5(d)) as the registered holder of the Registered Global Notes. None of the Issuer, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 5(d)) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (a) an Event of Default has occurred and is continuing, (b) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form, (c) in the case of Notes registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, no successor clearing system is available, (d) in the case of Notes registered in the name of a nominee for DTC, either DTC has notified the Issuer that it is unwilling or unable to continue to act as depository for the Notes and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act or (e) the Notes are required to be removed from (in the case of Notes registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg) both Euroclear and Clearstream, Luxembourg or (in the case of Notes registered in the name of a nominee for DTC) DTC and, in either case, no alternative clearing system is available. The Issuer will promptly give notice to Noteholders in accordance

with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) or the Issuer, as the case may be, may give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Registrar.

### Transfer of interests

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Note or in the form of a Definitive IAI Registered Note and Definitive IAI Registered Notes may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such Notes in the form of an interest in a Registered Global Note. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable, in each case. Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see “*Subscription and Sale and Transfer and Selling Restrictions*”.

### General

Pursuant to the Agency Agreement (as defined under “*Terms and Conditions of the Notes*”), the Principal Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes at a point after the Issue Date of the further Tranche, the Notes of such further Tranche shall be assigned a common code, and ISIN and, where applicable, a CUSIP and CINS number which are different from the common code and ISIN, CUSIP and CINS assigned to Notes of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S) applicable to the Notes of such Tranche.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg and/or DTC or its nominee each person (other than Euroclear or Clearstream, Luxembourg or DTC) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg or of DTC as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg or DTC as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and its agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes and, in the case of DTC or its nominee, voting, giving consents or making requests, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer and its agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions **Noteholder** and **holder of Notes** and related expressions shall be construed accordingly.

Except in relation to Notes issued in NGN form, any reference herein to Euroclear and/or Clearstream, Luxembourg and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms. A Note may be accelerated by the holder thereof in certain circumstances described in Condition 9. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note within a period of 15 days from the giving of a notice by a holder with Euroclear or Clearstream, Luxembourg of such Notes so represented and credited to its securities account that it wishes to accelerate such Notes, then holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear, Clearstream, Luxembourg and DTC on and subject to the terms of a deed of covenant dated 18th December, 2015 and executed by the Issuer (the **Deed of Covenant**). In addition, holders of

### 3. STATUS OF THE NOTES

#### (a) Status of the Senior Notes

The Senior Notes and any relative Coupons constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* without any preference or priority among themselves and with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future, but (a) subject to the exercise of any power pursuant to Law 11/2015, RD 1012/2015 (each as defined below) or other applicable laws relating to recovery and resolution of credit institutions and investment firms in Spain and (b) in the event of insolvency, only to the extent permitted by the Insolvency Law (as defined below) or other applicable laws relating to or affecting the enforcement of creditors' rights in Spain.

*In the event of insolvency (concurso) of the Issuer under the Insolvency Law (as defined below), claims on account of principal relating to Senior Notes (which are not subordinated pursuant to article 92 of the Insolvency Law) will be ordinary claims (créditos ordinarios) as defined in the Insolvency Law. Ordinary claims rank junior to claims against the insolvency state (créditos contra la masa) and privileged claims (créditos privilegiados) which shall include, without limitation, any deposits for the purposes of Additional Provision 14.1 of Law 11/2015 which shall be paid in full before ordinary claims. The claims of all creditors against the Issuer considered as “ordinary claims” will be satisfied pro rata in insolvency. Ordinary claims rank senior to subordinated claims and the rights of shareholders.*

*Pursuant to article 59 of the Insolvency Law, the further accrual of interest shall be suspended from the date of declaration of the insolvency of the Issuer. Claims in respect of interest on the Senior Notes accrued but unpaid as of the commencement of any insolvency procedure in respect of the Issuer shall constitute subordinated claims against the Issuer ranking in accordance with the provisions of article 92 of the Insolvency Law (including, without limitation, after claims on account*

*of principal in respect of contractually subordinated obligations of the Issuer, unless otherwise provided by the Insolvency Law). See “Risk Factors - Claims of Holders under the Senior Notes are effectively junior to those of certain other creditors”.*

*The obligations of the Issuer under the Senior Notes are also subject to the exercise of any power pursuant to Law 11/2015, RD 1012/2015 or other applicable laws relating to recovery and resolution of credit institutions and investment firms in Spain. See “Risk Factors - Risks related to Early Intervention and Resolution - The Notes may be subject to the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. Other powers contained in Law 11/2015 could materially affect the rights of the Noteholders under, and the value of, any Notes”.*

### **(b) Status of the Subordinated Notes**

The payment obligations of the Issuer under the Subordinated Notes and any relative Coupons whether on account of principal, interest or otherwise, constitute direct, unconditional, unsecured and subordinated obligations of the Issuer and:

- (i) in the case of Senior Subordinated Notes, rank in accordance with Additional Provision 14.2 of Law 11/2015 with respect to claims for principal:
  - (a) *pari passu* without any preference or priority among themselves and with all other claims for principal in respect of contractually subordinated obligations of the Issuer, present and future, not constituting Additional Tier 1 Capital or Tier 2 Capital of the Issuer for the purposes of section 2.(a) of Additional Provision 14 of Law 11/2015;
  - (b) junior to any unsubordinated obligations of the Issuer (including where those obligations subsequently become subordinated pursuant to article 92.1 of the Insolvency Law); and
  - (c) senior to any other subordinated obligations of the Issuer which by law rank junior to the Senior Subordinated Notes, including, without limitation, any claim for principal in respect of contractually subordinated obligations of the Issuer under any outstanding Additional Tier 1 Instruments or Tier 2 Instruments, present and future; and
- (ii) in the case of Tier 2 Subordinated Notes and for so long as the obligations of the Issuer in respect of the Tier 2 Subordinated Notes constitute a Tier 2 Instrument of the Issuer, rank in accordance with Additional Provision 14.2 of Law 11/2015 with respect to claims for principal:
  - (a) *pari passu* without any preference or priority among themselves and with all other claims for principal in respect of contractually subordinated obligations of the Issuer under any outstanding Tier 2 Instruments, present and future;
  - (b) junior to (A) any unsubordinated obligations of the Issuer (including where those obligations subsequently become subordinated pursuant to article 92.1 of the Insolvency Law) and (B) any claim for principal in respect of Senior Subordinated Notes and (C) any other contractually subordinated obligations of the Issuer, present and future, not constituting Additional Tier 1 Capital or Tier 2 Capital of the Issuer for the purposes of section 2.(a) of Additional Provision 14 of Law 11/2015; and
  - (c) senior to any other subordinated obligations of the Issuer which by law rank junior to the Tier 2 Subordinated Notes, including, without limitation, any claim for principal in respect of contractually subordinated obligations of the Issuer under any outstanding Additional Tier 1 Instruments, present and future.

To the extent the obligations of the Issuer in respect of the Tier 2 Subordinated Notes cease to constitute a Tier 2 Instrument of the Issuer, the payment obligations of the Issuer under the Tier 2 Subordinated Notes will rank as if the Notes were Senior Subordinated Notes.

*In the event of insolvency (concurso) of the Issuer under the Insolvency Law claims on account of principal by Subordinated Noteholders against the Issuer will fall within the category of subordinated credits (as defined in the Insolvency Law) and will rank as indicated above.*

*Claims of Subordinated Noteholders in respect of interest accrued but unpaid as of the commencement of any insolvency procedure in respect of the Issuer shall constitute subordinated claims against the Issuer ranking in accordance with the provisions of article 92 of the Insolvency Law and no further interest shall accrue from the date of the declaration of insolvency of the Issuer.*

*The obligations of the Issuer under the Subordinated Notes are also subject to the exercise of any power pursuant to Law 11/2015, RD 1012/2015 or other applicable laws relating to recovery and resolution of credit institutions and investment firms in Spain. See “Risk Factors - Risks related to Early Intervention and Resolution - The Notes may be subject to the exercise of the Spanish Bail-in Power by the Relevant Spanish Resolution Authority. Other powers contained in Law 11/2015 could materially affect the rights of the Noteholders under, and the value of, any Notes”.*

## 4. INTEREST

### (a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in these Conditions, **Fixed Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

## TERMS AND CONDITIONS OF THE NOTES

---

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note; or
- (ii) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

**Day Count Fraction** means, in respect of the calculation of an amount of interest, in accordance with this Condition 4(a):

- (i) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
  - (A) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **Accrual Period**) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
  - (B) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
    - I. the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
    - II. the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;
- (ii) if “Actual/Actual (ISDA)” is specified in the applicable Final Terms, the actual number of days in the relevant period from and including the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to but excluding the relevant payment date divided by 365 (or, if any portion of that period falls in a leap year, the sum of (A) the actual number of days in that portion of the period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the period falling in a non-leap year divided by 365);
- (iii) if “30/360” is specified in the applicable Final Terms, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360;

## TERMS AND CONDITIONS OF THE NOTES

---

- (iv) if “30/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the relevant period from and including the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to but excluding the relevant payment date divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months (unless (a) the last day of the interest period is the 31st day of a month but the first day of the interest period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day a month, or (b) the last day of the interest period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month)); and

## TERMS AND CONDITIONS OF THE NOTES

---

- (A) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each such date, together with each Specified Interest Payment Date, an **Interest Payment Date**) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period. In these Conditions, **Interest Period** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- I. in any case where Specified Periods are specified in accordance with Condition 4(c)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis* or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- II. the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- III. the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- IV. the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, **Business Day** means a day which is:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in each Additional Business Centre (other than TARGET2 System) specified in the applicable Final Terms;
- (B) if TARGET2 System is specified as an Additional Business Centre in the applicable Final Terms, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the **TARGET2 System**) is open; and
- (C) either (I) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign

currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than any Additional Business Centre and which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (II) in relation to any sum payable in euro, a day on which the TARGET2 System is open.

(ii) *Rate of Interest*

The Rate of Interest payable from time to time in respect of Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(A) *ISDA Determination for Floating Rate Notes*

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (A), **ISDA Rate** for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the **ISDA Definitions**) and under which:

- I. the Floating Rate Option is specified in the applicable Final Terms;
- II. the Designated Maturity is a period specified in the applicable Final Terms;  
and
- III. the relevant Reset Date is the day specified in the applicable Final Terms.

For the purposes of this sub-paragraph (A), **Floating Rate**, **Calculation Agent**, **Floating Rate Option**, **Designated Maturity** and **Reset Date** have the meanings given to those terms in the ISDA Definitions.

(B) *Screen Rate Determination for Floating Rate Notes*

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- I. the offered quotation; or
- II. the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate (being either LIBOR or EURIBOR, as specified in the applicable Final Terms) which appears or appear, as the case may be, on the Relevant Screen Page (or such replacement page on that service which displays the information) as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Principal Paying Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such

quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Principal Paying Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of I. above, no such offered quotation appears or, in the case of II. above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

(iii) *Minimum Rate of Interest and/or Maximum Rate of Interest*

If the applicable Final Terms specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(iv) *Determination of Rate of Interest and calculation of Interest Amounts*

The Principal Paying Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Principal Paying Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note; or
- (B) in the case of Floating Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

**Day Count Fraction** means, in respect of the calculation of an amount of interest in accordance with this Condition 4(c):

- (A) if “Actual/Actual (ISDA)” or “Actual/Actual” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);

## TERMS AND CONDITIONS OF THE NOTES

---

- (B) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365;
- (C) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (D) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Interest Period divided by 360;
- (E) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D<sub>1</sub>” is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D<sub>1</sub> will be 30; and

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D<sub>1</sub> is greater than 29, in which case D<sub>2</sub> will be 30; and

- (F) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D<sub>1</sub>” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D<sub>1</sub> will be 30; and

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D<sub>2</sub> will be 30; and

- (G) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D<sub>1</sub>” is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D<sub>1</sub> will be 30; and

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D<sub>2</sub> will be 30.

(v) *Linear Interpolation*

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Principal Paying Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Principal Paying Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

**Designated Maturity** means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(vi) *Notification of Rate of Interest and Interest Amounts*

The Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange or other relevant authority on which the relevant Floating Rate Notes are for the time being listed or by which they have been admitted to listing and notice thereof to be published in accordance with Condition 13 as soon as possible after their determination but in no event later than the fourth London Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange or other relevant authority on which the relevant Floating Rate Notes are for the time being listed or by which they have been admitted to listing and to the Noteholders in accordance with Condition 13. For the purposes of this paragraph, the expression **London Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(vii) *Certificates to be final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4(c) by the Principal Paying Agent shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Principal Paying Agent, the Calculation Agent (if applicable), the other Agents and all Noteholders and Couponholders and (in the absence of wilful default, bad faith or manifest error) no liability to the Issuer, the Noteholders or the Couponholders shall attach to the Principal Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

**(d) Accrual of interest**

Each Note will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (i) the date on which all amounts due in respect of such Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable in respect of such Notes has been received by the Principal Paying Agent or the relevant Registrar, as the case may be, and notice to that effect has been given to the Noteholders in accordance with Condition 13.

**5. PAYMENTS**

**(a) Method of payment**

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively); and
- (ii) payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.

## TERMS AND CONDITIONS OF THE NOTES

---

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in any jurisdiction, but without prejudice to the provisions of Condition 7, and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the **Code**) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or (without prejudice to the provisions of Condition 7) any law implementing an intergovernmental approach thereto.

### (b) Presentation of definitive Bearer Notes and Coupons

Payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Fixed Rate Notes in definitive bearer form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 7) in respect of such principal (whether or to such Coupon would otherwise have become void under Condition 8) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Fixed Reset Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A **Long Maturity Note** is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

### (c) Payments in respect of Bearer Global Notes

Payments of principal and interest (if any) in respect of Notes represented by any Global Note in bearer form will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes or otherwise in the manner specified in the relevant Global Note, where applicable, against presentation or surrender, as the case may be, of such Global Note at the specified office of any Paying Agent outside the United States. A record of each payment made distinguishing

between any payment of principal and any payment of interest, will be made on such Global Note either by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

### (d) Payments in respect of Registered Notes

Payments of principal in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the relevant Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the relevant Registrar (the **Register**) at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the relevant Registrar is located) before the relevant due date. Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, **Designated Account** means the account (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and **Designated Bank** means (in the case of payment in a Specified Currency other than euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) and (in the case of a payment in euro) any bank which processes payments in euro.

Payments of interest in respect of each Registered Note (whether or not in global form) will be made by a cheque in the Specified Currency drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the relevant Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose a day on which Euroclear and Clearstream, Luxembourg are open for business) before the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such fifteenth day is a business day) before the relevant due date (the **Record Date**) at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the relevant Registrar not less than three business days in the city where the specified office of the relevant Registrar is located before the due date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the relevant Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption will be made in the same manner as payment of the principal amount of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the relevant Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

All amounts payable to DTC or its nominee as registered holder of a Registered Global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the U.S. Registrar to an account in the relevant Specified Currency of the Exchange Agent on behalf of DTC or its nominee for conversion into and payment in U.S. dollars in accordance with the provisions of the Agency Agreement.

Neither the Issuer nor any Agent will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

### (e) General provisions applicable to payments

The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg or DTC as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg or DTC, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note. No person other than the holder of the relevant Global Note shall have any claim against the Issuer in respect of any payments due in respect of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

### (f) Payment Day

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, **Payment Day** means any day which (subject to Condition 8) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
  - (A) the relevant place of presentation (if presentation is required); and
  - (B) each Additional Financial Centre (other than TARGET2 System) specified in the applicable Final Terms;
- (ii) if TARGET2 System is specified as an Additional Financial Centre in the applicable Final Terms, a day on which the TARGET2 System is open;
- (iii) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the

- (iv) in the case of any payment in respect of a Registered Global Note denominated in a Specified Currency other than U.S. dollars and registered in the name of DTC or its nominee and in respect of which an accountholder of DTC (with an interest in such Registered Global Note) has elected to receive any part of such payment in U.S. dollars, a day on which commercial banks are not authorised or required by law or regulation to be closed in New York City.

### (g) Interpretation of principal and interest

Any reference in these Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable with respect to principal under Condition 7;
- (ii) the Final Redemption Amount of the Notes;
- (iii) the Early Redemption Amount of the Notes;
- (iv) the Optional Redemption Amount(s) (if any) of the Notes;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 6(g)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 7.

### (h) RMB Currency Event

If “RMB Currency Event” is specified in the applicable Final Terms and a RMB Currency Event, as determined by the Issuer acting in good faith, exists on a date for payment of any amount in respect of any Note or Coupon, the Issuer’s obligation to make a payment in RMB under the terms of the Notes may be replaced by an obligation to pay such amount in the Relevant Currency converted using the Spot Rate for the relevant Determination Date.

Upon the occurrence of a RMB Currency Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 13 stating the occurrence of the RMB Currency Event, giving details thereof and the action proposed to be taken in relation thereto.

For the purpose of this Condition and unless stated otherwise in the Final Terms:

**Determination Business Day** means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange) in Madrid, Hong Kong, London and New York City;

**Determination Date** means the day which is two Determination Business Days before the due date of the relevant payment under the Notes;

**Governmental Authority** means any de facto or de jure government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong;

**Relevant Currency** means U.S. dollars or such other currency as may be specified in the applicable Final Terms;

**RMB Currency Events** means any one of RMB Illiquidity, RMB Non-Transferability and RMB Inconvertibility;

**RMB Illiquidity** means the general RMB exchange market in Hong Kong becomes illiquid as a result of which the Issuer cannot obtain sufficient RMB in order to make a payment under the Notes, as determined by the Issuer in a commercially reasonable manner following consultation by such Issuer with two independent foreign exchange dealers of international repute active in the RMB exchange market in Hong Kong;

**RMB Inconvertibility** means the occurrence of any event that makes it impossible for the Issuer to convert any amount due in respect of the Notes into RMB on any payment date at the general RMB exchange market in Hong Kong, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

**RMB Non-Transferability** means the occurrence of any event that makes it impossible for the Issuer to deliver RMB between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong (including where the RMB clearing and settlement system for participating banks in Hong Kong is disrupted or suspended), other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation); and

**Spot Rate** means, unless specified otherwise in the applicable Final Terms, the spot CNY/U.S. dollar exchange rate for the purchase of U.S. dollars with Renminbi in the over-the-counter Renminbi exchange market in Hong Kong for settlement in two Determination Business Days, as determined by the Calculation Agent at or around 11.00 a.m. (Hong Kong time) on the Determination Date, on a deliverable basis by reference to Reuters Screen Page TRADCNY3, or if no such rate is available, on a non-deliverable basis by reference to Reuters Screen Page TRADNDF. If neither rate is available, the Calculation Agent shall determine the rate taking into consideration all available information which the Calculation Agent deems relevant, including pricing information obtained from the Renminbi non-deliverable exchange market in Hong Kong or elsewhere and the CNY/U.S. dollar exchange rate in the PRC domestic foreign exchange market.

**(i) RMB account**

In the case of a partial redemption of Notes, the Notes to be redeemed (**Redeemed Notes**) will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and/or DTC, in the case of Redeemed Notes represented by a Global Note, not more than 30 days prior to the date fixed for redemption (or such lesser period specified in the applicable Final Terms) (such date of selection being hereinafter called the **Selection Date**). **(e) Redemption at the option of the Issuer (Eligible Liabilities Event): Senior Subordinated Notes**

If the Notes are Senior Subordinated Notes and Eligible Liabilities Event is specified as applicable in the applicable Final Terms, then upon the occurrence of an Eligible Liabilities Event as a result of a change (or any pending change which the Regulator considers sufficiently certain) in Spanish law or Applicable Banking Regulations or any change in the official application or interpretation thereof becoming effective on or after the Issue Date, the Senior Subordinated Notes may be redeemed at the option of the Issuer in whole, but not in part, subject to such redemption being permitted by the Applicable Banking Regulations then in force, and subject to the prior consent of the Regulator if required pursuant to such regulations, at any time, on giving not less than 30 nor more than 60 days'

### (f) **Redemption at the option of the Noteholders (Investor Put)**

If Investor Put is specified as being applicable in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 13 not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms (which notice shall be irrevocable) the Issuer will, upon the expiry of such notice, redeem, in whole or in part, such Note on the Optional Redemption Date and at the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date. No such redemption option will be applicable to any Subordinated Notes, except as permitted under Applicable Banking Regulations.

To exercise the right to require redemption of this Note the holder of this Note must if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg deliver at the specified office of any Paying Agent (in the case of Bearer Notes) or the relevant Registrar (in the case of Registered Notes) at any time during normal business hours of such Paying Agent or, as the case may be, the relevant Registrar falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the relevant Registrar (a **Put Notice**) and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition and, in the case of Registered Notes, the nominal amount thereof to be redeemed. If this Note is in definitive bearer form, the Put Notice must be accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary for them to the Principal Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time, and, if this Note is a Bearer Note represented by a global Note, the terms of which require presentation for recording changes to its nominal amount, at the same time present or procure the presentation of the relevant global Note to the Principal Paying Agent for notation accordingly.

Any Put Notice or other notice given in accordance with the standard procedures of Euroclear, Clearstream, Luxembourg and/or DTC given by a holder of any Note pursuant to this Condition 6(f) shall be irrevocable except where prior to the due date of redemption an Event of Default has occurred and is continuing in which event such holder, at its option, may elect by notice to the Issuer to

withdraw the notice given pursuant to this Condition 6(f) and instead to declare such Note forthwith due and payable pursuant to Condition 9.

**(g) Early Redemption Amounts**

For the purpose of paragraphs (b), (d) and (e) above and Condition 9:

- (i) each Note (other than a Zero Coupon Note) will be redeemed at its Early Redemption Amount; and
- (ii) each Zero Coupon Note will be redeemed at an amount (the **Amortised Face Amount**) calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

**RP** means the Reference Price;

**AY** means the Accrual Yield expressed as a decimal; and

**y** is the Day Count Fraction specified in the applicable Final Terms which will be either (i) 30/360 (in which case the numerator will be equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (ii) Actual/360 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 360) or (iii) Actual/365 (in which case the numerator will be equal to the actual number of days from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator will be 365).

**(h) Purchases**

The Issuer or any of its subsidiaries may at any time purchase Senior Notes or Subordinated Notes (provided that, in the case of definitive Bearer Notes, all unmatured Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise (subject, in the case of Subordinated Notes, to the prior consent of the Regulator, if required, and to compliance with the provisions of any Applicable Banking Regulations then in force). Such Notes may be held, reissued, resold or, at the option of the Issuer, surrendered to any Paying Agent and/or the Registrar for cancellation.

**(i) Cancellation**

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to paragraph (h) above (together with all unmatured Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

**(j) Late payment on Zero Coupon Notes**

## TERMS AND CONDITIONS OF THE NOTES

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b) or (c) above or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (g)(ii) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Principal Paying Agent or the relevant Registrar and notice to that effect has been given to the Noteholders in accordance with Condition 13.

In the event that any withholding or deduction is imposed or levied by or on behalf of the Kingdom of Spain or any political subdivision or authority thereof or therein having the power to tax (**Spain**), the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes or Coupons, as the case may be, in the absence of such withholding or deduction; except that no such additional amounts shall be payable with respect to any Note or Coupon:

- (a) presented for payment by or on behalf of a holder who is liable for such taxes or duties in respect of such Note or Coupon by reason of his having some connection with Spain other than the mere holding of such Note or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such 30th day assuming that day to have been a Payment Day (as defined in Condition 5(f)); or
- (c) presented for payment by or on behalf of a holder who would not be liable or subject to the withholding or deduction by making a declaration concerning the nationality, residence or identity of the holder (or providing information, documentation or other evidence of the same) or other similar claim for exemption to the relevant tax authority or to (or on behalf of) the Issuer, where such declaration or claim is required or imposed by the Spanish Tax Authorities; or
- (d) in case of Notes where such withholding tax is imposed on payments made to individuals with tax residence in Spain following the criteria held by the Spanish Tax Authorities in relation to Article 44.5, Royal Decree 1065/2007 of 27th July, as amended by Royal Decree 1145/2011 of 29th July.

In these Conditions, the **Relevant Date**, in respect of any payment, means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent or the relevant Registrar, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 13.

# DESCRIPTION OF BANCO BILBAO VIZCAYA ARGENTARIA, S.A.

## HISTORY AND DEVELOPMENT OF THE ISSUER

BBVA's predecessor bank, BBV, was incorporated as a limited liability company (a *sociedad anónima* or S.A.) under the Spanish Corporations Law on 1st October, 1988. BBVA was formed following the merger of Argentaria into BBV, which was approved by the shareholders of each entity on 18th December, 1999 and registered on 28th January, 2000. It conducts its business under the commercial name "BBVA". BBVA is registered with the Commercial Registry of Vizcaya (Spain). It has its registered office at Plaza de San Nicolás 4, Bilbao, Spain, 48005, and operates out of Calle Azul, 4, 28050, Madrid, Spain, telephone number +34-91-374-6201. BBVA's agent in the U.S. for U.S. federal securities law purposes is Banco Bilbao Vizcaya Argentaria, S.A. New York Branch (1345 Avenue of the Americas, 44th Floor, New York, New York 10105 (Telephone: +1-212-728-1660)). BBVA is incorporated for an unlimited term.

## CAPITAL EXPENDITURES

BBVA's principal investments are financial investments in its subsidiaries and affiliates. The main capital expenditures in 2015, 2014 and 2013 were as follows:

### 2015

#### *Acquisition of an additional 14.89 per cent. of Garanti*

On 19th November, 2014, the Group signed a new agreement with the Doğuş Group to, among other terms, acquire 62,538,000,000 additional shares of Garanti (equivalent to 14.89 per cent. of the capital of this entity) for a maximum total consideration of TL 8.90 per batch (Garanti traded in batches of 100 shares each).

The same agreement stated that if the payment of dividends for the year 2014 was executed by the Doğuş Group before the closing of the acquisition, that amount would be deducted from the amount payable by BBVA. On 27th April, 2015, the Doğuş Group received the amount of the dividend paid to shareholders of Garanti, which amounted to TL 0.135 per batch.

On 27th July, 2015, after obtaining all the required regulatory approvals, the Group completed the acquisition of these shares. The Group's current interest in Garanti is 39.90 per cent.

The total price effectively paid by BBVA amounted to TL 8.765 per batch (amounting to approximately TL 5,481 million and €1,857 million applying a 2.9571 TL/EUR exchange rate).

The agreements with the Doğuş Group include an agreement for the management of Garanti and the appointment by the Group of the majority of the members of its board of directors (seven out of ten). The 39.90 per cent. stake in Garanti is consolidated in the Group, because of these management agreements. In accordance with IFRS-IASB, and as a consequence of the agreements reached, the Group shall, at the date of effective control, measure at fair value its previously acquired stake of 25.01 per cent. in Garanti (classified as a joint venture accounted for using the equity method) and shall consolidate Garanti in the consolidated financial statements of the Group beginning on the above-mentioned effective control date.

Measuring the above-mentioned stake in Garanti at fair value resulted in a negative impact in "Gains (Losses) on derecognised assets not classified as non-current assets held for sale" in the consolidated income statement of the Group for the year ended 31st December, 2015, which resulted, in turn, in a net negative impact in the "Profit attributable to parent company" of the Group in 2015 amounting to €1,840 million. Such accounting impact did not translate into any additional cash outflow from BBVA. Most of this impact is generated by the exchange rate differences due to the depreciation of the TL against euro since the initial acquisition by BBVA of the 25.01 per cent. stake in Garanti up to the date of effective control. As of 31st December, 2015, these

exchange rate differences were already recognised as Other Comprehensive Income deducting the stock shareholder's equity of the Group.

As of 31st December, 2015, Garanti has total assets of approximately €90 billion, of which approximately €55 billion were loans to customers, and a volume of customer deposits of approximately €75 billion. The contribution of Garanti to the 2015 consolidated income statement was €371 million regardless of the above mentioned measurement of the stake in Garanti at fair value. See Note 6 to the Consolidated Financial Statements for additional information.

If the business combination with Garanti had become effective on 1st January, 2015, Garanti would have contributed €539 million to the consolidated income statement for the year ended 31st December, 2015, regardless of the above mentioned measurement of the stake in Garanti at fair value.

According to the acquisition method, which compares the fair values assigned to the assets acquired and the liabilities assumed by the Issuer from Garanti with the overall purchase price paid by the Issuer, the Group provisionally estimated that the acquisition of Garanti generated goodwill of €622 million as of 31st December, 2015, which was recognised under the heading "Intangible assets – Goodwill" in the consolidated balance sheet as of 31st December, 2015. According to IFRS 3, there is a period, not to exceed one year from the acquisition date, to retrospectively adjust the provisional amounts recognised at the acquisition date for new facts and circumstances not in existence on such date that would have affected the calculation of the initial acquisition price. See Note 18.1 to the Consolidated Financial Statements for additional information.

#### ***Acquisition of Catalunya Banc***

On 24th April, 2015, once the necessary authorisations had been obtained and all of the agreed conditions precedent had been fulfilled, BBVA announced the acquisition of 1,947,166,809 shares of Catalunya Banc, S.A. (**Catalunya Banc**) (approximately 98.4 per cent. of its share capital) for a price of approximately €1,165 million.

Previously, on 21st July, 2014, the Management Commission of the FROB had accepted BBVA's bid in the competitive auction for the acquisition of Catalunya Banc.

As of 31st December, 2015, Catalunya Banc had assets of approximately €40 billion, of which approximately €19 billion corresponded to loans and advances to customers. Customer deposits amounted to approximately €36 billion as of such date.

According to the purchase method, the comparison between the fair values assigned to the assets acquired and the liabilities assumed from Catalunya Banc as of 31st December, 2015, and the cash payment made to the FROB in consideration of the transaction generated a difference of €26 million, which was recognised under the heading "Negative Goodwill in business combinations" in the consolidated income statement for the year ended 31st December, 2015. According to IFRS 3, there is a period, not to exceed one year from the acquisition date, to retrospectively adjust the provisional amounts recognised at the acquisition date for new facts and circumstances not in existence on such date that would have affected the calculation of the initial acquisition price. See Note 18.1 to the Consolidated Financial Statements for additional information.

### **2014**

In 2014 there were no additional significant capital expenditures.

### **2013**

#### ***Acquisition of Unnim Vida.***

On 1st February, 2013, Unnim Banc, S.A. (which was subsequently merged into BBVA), reached an agreement with Aegon Spain Holding B.V. to acquire 50 per cent. of Unnim Vida, Inc. Insurance and

Reinsurance (**Unnim Vida**) for a price of €352 million. Following this acquisition, the Group owned 100 per cent. of Unnim Vida.

## **CAPITAL DIVESTITURES**

BBVA's principal divestitures are financial divestitures in its subsidiaries and affiliates. The main capital divestitures in 2015, 2014 and 2013 were as follows:

CIFH is a non-listed subsidiary of CNCB domiciled in Hong Kong. On 27th August, 2015, BBVA completed the sale of this participation. The selling price of HK\$8,162 million was recognised under "gains (losses) in non-current assets held for sale not classified as discontinued operations".

#### ***Partial sale of China CITIC Bank Corporation Limited (CNCB)***

On 23rd January, 2015, the Group signed an agreement to sell a 4.9 per cent. stake in CNCB to UBS AG, London Branch (**UBS**), which in turn entered into transactions pursuant to which such CNCB shares were to be transferred to a third party, with the ultimate economic benefit of ownership of such CNCB shares being transferred to Xinhua Zhongbao Co., Ltd (**Xinhua**) (collectively, the **Relevant Transactions**). On 12th March, 2015, after having obtained the necessary approvals, BBVA completed the sale. The selling price to UBS was HK\$5.73 per share, amounting to a total of HK\$13,136 million, equivalent to approximately €1,555 million (with an exchange rate of €/HK\$=8.45 as of the date of the closing).

In addition to the sale of this 4.9 per cent. stake, the Group made various sales of CNCB shares in the market during 2015. In total, a participation of 6.34 per cent. in CNCB was sold during 2015. The impact of these sales on the Consolidated Financial Statements of the Group was a gain, net of taxes, of approximately €705 million in 2015. This gain, gross of taxes, was recognised under "Gains (losses) in non-current assets available for sale not classified as discontinued operations" in the consolidated income statement for 2015. See Note 49 to the Consolidated Financial Statements for additional information.

As of 31st December, 2015, BBVA holds a 3.26 per cent. interest in CNCB (valued at €910 million). This participation is recognised under the heading "Available for sale financial assets" in BBVA's balance sheet as of 31st December, 2015.

(**BBVA Panamá**).

On 19th December, 2013, after having obtained the necessary approvals, BBVA completed the sale.

## DESCRIPTION OF BANCO BILBAO VIZCAYA ARGENTARIA, S.A.

See Note 49 to the Consolidated Financial Statements for additional information.

### *Sale of pension businesses in Latin America*

On 24th May, 2012 BBVA announced its decision to conduct a study on strategic alternatives for its pension business in Latin America. The alternatives considered in this process included the total or partial sale of the businesses of the Pension Fund Administrators (AFP) in Chile, Colombia and Peru, and the Retirement Fund Administrator (Afore) in Mexico.

On 2nd October, 2013, with the sale of Administradora de Fondos de Pensiones AFP Provida S.A. (AFP **Provida**), BBVA finalized the process. Below is a description of each of the operations that have been carried out during this process:

On 2nd October, 2013, BBVA completed the sale. The total amount in cash received by BBVA was approximately U.S.\$1,540 million, taking into account the purchase price amounting to roughly U.S.\$1,310 million as well as the dividends paid by AFP Provida since 1st February, 2013 amounting to roughly U.S.\$230 million. The gain on disposal, attributable to the parent company net of taxes, amounted to approximately €500 million which was recognised under the heading “Profit from discontinued operations (Net)” in the consolidated income statement in 2013. See Note 49 to the Consolidated Financial Statements for additional information.

#### *Sale of BBVA AFP Horizonte S.A. (Peru)*

The total consideration paid for such shares was approximately U.S.\$544 million. This consideration was composed of a purchase price of approximately U.S.\$516 million and a dividend distributed prior to the closing of approximately U.S.\$28 million.

The gain on disposal, attributable to parent company net of taxes, amounted to approximately €206 million at the moment of the sale and such gain was recognised under the heading “Profit from discontinued operations (Net)” in the consolidated income statement in 2013. The period-end exchange rate against the euro of the currencies of the countries in which BBVA operates in South America decreased, on average, in 2015, compared with December 2014, negatively affecting business activity in South America. The depreciation of the Venezuelan bolivar as of 31st December, 2015 was particularly significant. See “*Item 5. Operating and Financial Review and Prospects—Factors Affecting the Comparability of our Results of Operations and Financial Condition*” of the Form 20-F.

Loans and advances to customers in this operating segment as of 31st December, 2015 amounted to €44,970 million, a 15.0 per cent. decrease from the €52,920 million recorded as of 31st December, 2014, mainly due to the significant depreciation of the Venezuelan bolivar. Excluding the impact of loans and advances to customers in Venezuela, there was increased activity, particularly in consumer loans, credit cards and corporate lending.

Customer deposits in this operating segment as of 31st December, 2015 amounted to €41,998 million, a 25.5 per cent. decrease from the €56,370 million recorded as of 31st December, 2014, mainly due to the significant depreciation of the Venezuelan bolivar. Excluding the impact of customer deposits in Venezuela, there was positive growth in BBVA's products, in particular current and saving accounts.

Mutual funds in this operating segment as of 31st December, 2015 amounted to €3,793 million, a 1.4 per cent. decrease from the €3,848 million recorded as of 31st December, 2014, mainly due to the significant depreciation of the Venezuelan bolivar, which was partially offset by a positive performance in Argentina, Chile and Peru.

Pension funds in this operating segment as of 31st December, 2015 amounted to €5,936 million, a 28.2 per cent. increase from the €4,632 million recorded as of 31st December, 2014, mainly as a result of the increased volumes in Bolivia and the appreciation of the Bolivian currency.

This operating segment's non-performing assets ratio increased to 2.3 per cent. as of 31st December, 2015 from 2.1 per cent. as of 31st December, 2014. This operating segment non-performing assets coverage ratio decreased to 123 per cent. as of 31st December, 2015, from 138 per cent. as of 31st December, 2014.

**United States**

This operating segment encompasses the Group's business in the United States. BBVA Compass accounted for approximately 91 per cent. of the area's balance sheet as of 31st December, 2015. Given its weight, most of the comments below refer to BBVA Compass. This operating segment also covers the assets and liabilities of the BBVA office in New York, which specialises in transactions with large corporations.

The following table sets forth information relating to the business activity of this operating segment for the years ended 31st December, 2015, 2014 and 2013:

This operating segment’s non-performing assets ratio was 0.9 per cent. as of 31st December, 2015 and 2014. This operating segment non-performing assets coverage ratio decreased to 151 per cent. as of 31st December, 2015, from 167 per cent. as of 31st December, 2014, as a result of the decrease in provisions related to the oil and gas sector due, in turn, to decreasing oil prices.

## DIRECTORS AND SENIOR MANAGEMENT

BBVA is managed by a Board of Directors which, in accordance with its current by-laws (*Estatutos*), must consist of no less than 5 and no more than 15 members. All members of the Board of Directors are elected to serve three-year terms. BBVA's Board of Directors Regulations state that the Board of Directors must try to ensure that there is an ample majority of non-executive directors over the number of executive directors on the Board of Directors.

BBVA's corporate governance system is based on the distribution of functions between the Board of Directors, the Executive Committee and other specialised Board Committees, namely: the Audit and Compliance Committee; the Appointments Committee; the Remuneration Committee; the Risk Committee; and the IT and Cybersecurity Committee. BBVA's Board of Directors is assisted in fulfilling its responsibilities by the Executive Committee (*Comisión Delegada Permanente*) of the Board of Directors. The Executive Committee will be apprised of such business of BBVA as the Board of Directors resolves to confer on it, in accordance with prevailing legislation, the Company Bylaws or the Board of Directors Regulations.

### Board of Directors

The Board of Directors of BBVA is currently comprised of 15 members. The business address of the Directors of BBVA is Calle Azul, 4, 28050 Madrid.

The following table sets forth the names of the members of the Board of Directors as of the date of this Offering Circular, their date of appointment and re-election, if applicable, their current positions and their present principal outside occupation and employment history.

BBVA may, from time to time, enter into transactions in the ordinary course of its business, and on an arm's-length basis, with the Directors.

BBVA's Board of Directors Regulations include rules which are designed to prevent situations where a potential conflict of interest may arise. These Regulations provide, among other matters, that Directors with a potential conflict of interest may not participate in meetings at which those situations are being considered. Accordingly, there are no potential conflicts of interest between the private interests or other duties of the Directors and their duties to BBVA.

### Major Shareholders and Share Capital

As of 6th October, 2016, Blackrock, Inc. communicated that it held an indirect interest of 5.009 per cent. in BBVA's share capital. As at 30th September, 2016, no other person, corporation or government beneficially owned, directly or indirectly, 5 per cent. or more of BBVA's share capital. BBVA's major shareholders do not have voting rights which are different from those held by the rest of its shareholders. To the extent known to BBVA, BBVA is not controlled, directly or indirectly, by any other corporation, government or any other natural or legal person. As of 30th September, 2016, there were 947,244 registered holders of BBVA's shares, with an aggregate of 6,480,357,925 shares, of which 603 shareholders with registered addresses in the United States held a total of 961.131.559 shares (including shares represented by American Depositary Receipts (ADRs)). Since certain of such shares and ADRs are held by nominees, the foregoing figures are not representative of the number of beneficial holders.

### Legal Proceedings

Several entities of the Group are party to legal actions in a number of jurisdictions (including, among others, Spain, Mexico and the United States) arising in the ordinary course of business. According to the procedural status of these proceedings and the criteria of legal counsel, BBVA considers that none of such actions is material, individually or in the aggregate, and none is expected to result in a material adverse effect on the Group's financial position, results of operations or liquidity, either individually or in the aggregate. The Group's Management believes that adequate provisions have been made in respect of such legal proceedings and considers that the possible contingencies that may arise from such ongoing lawsuits are not material and therefore do not require disclosure to the markets.

On 9th May, 2013, the Supreme Court of Spain issued a decision regarding the legality of "floor" clauses in mortgage loans to consumers by various financial entities (including BBVA) which limit any decrease in variable interest rates on such loans. As part of this decision, the Supreme Court of Spain confirmed that there was to be no retroactive application of the Supreme Court's decision to any position previously settled by a final judicial decision or payments already made at the time the decision was published.

Following the decision of the Supreme Court of Spain, the Provincial Court of Alicante asked the Court of Justice of the European Union (the **CJEU**) to determine if the limitation of the effects of the declaration of invalidity by the Supreme Court of Spain from the date of delivery of its decision was compatible with Council Directive 93/13/EEC of 5th April, 1993 on unfair terms in consumer contracts (**Directive 93/13/EEC**). On 13th July, 2016 the opinion of the Advocate General of the CJEU was published. This opinion confirmed that the time limitations placed on the effects of the invalidity of "floor" clauses in mortgage loans to consumers was compatible with Directive 93/13/EEC. The Advocate General of the CJEU's opinion is not binding on the CJEU and judgment by the CJEU will be given at a later date.

## **DESCRIPTION OF BANCO BILBAO VIZCAYA ARGENTARIA, S.A.**

---

BBVA is not currently the subject of any collective claim in which a refund of amounts paid before 9th May, 2013 is being requested and the number of individual claims of consumers requesting such a refund is not significant. However, BBVA estimates that the maximum amount subject to any potential claims, should the CJEU decide that the Supreme Court of Spain's decision was not compatible with Directive 93/13/EEC, will be approximately €1.2 billion, although past experience in similar circumstances indicates that the actual impact would probably be lower.

## BOOK-ENTRY CLEARANCE SYSTEMS

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the Clearing Systems) currently in effect. The Issuer takes responsibility for the correct extraction and reproduction of the information in this section concerning the Clearing Systems, but neither the Issuer nor any Dealer takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. Neither the Issuer nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.*

### Book-entry Systems

#### DTC

DTC has advised the Issuer that it is a limited purpose trust company organised under the New York Banking Law, a “banking organisation” within the meaning of the New York Banking Law, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to Section 17A of the Exchange Act. DTC holds securities that its participants (**Participants**) deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerised bookentry changes in Participants’ accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the NYSE MKT LLC, Inc. and the Financial Industry Regulatory Authority, Inc. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (**Indirect Participants**).

Under the rules, regulations and procedures creating and affecting DTC and its operations (the **Rules**), DTC makes book-entry transfers of Registered Notes among Direct Participants on whose behalf it acts with respect to Notes accepted into DTC’s book-entry settlement system (**DTC Notes**) as described below and receives and transmits distributions of principal and interest on DTC Notes. The Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Notes (**Owners**) have accounts with respect to the DTC Notes similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Notes through Direct Participants or Indirect Participants will not possess Registered Notes, the Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of the DTC Notes.

Purchases of DTC Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Notes on DTC’s records. The ownership interest of each actual purchaser of each DTC Note (**Beneficial Owner**) is in turn to be recorded on the Direct and Indirect Participant’s records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Notes, except in the event that use of the book-entry system for the DTC Notes is discontinued.

To facilitate subsequent transfers, all DTC Notes deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of DTC Notes with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Notes; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the DTC Notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to DTC Notes. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the DTC Notes will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the due date for payment in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the Notes, DTC will exchange the DTC Notes for definitive Registered Notes, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Note, will be legended as set forth under "*Subscription and Sale and Transfer and Selling Restrictions*".

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Notes to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Notes, will be required to withdraw its Registered Notes from DTC as described below.

Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a

custodial relationship with an account holder of either system. For further information on Euroclear and Clearstream, Luxembourg relating to the Notes, please see “*Taxation*”.

**Book-entry Ownership of and Payments in respect of DTC Notes**

The Issuer may apply to DTC in order to have any Tranche of Notes represented by a Registered Global Note accepted in its book-entry settlement system. Upon the issue of any such Registered Global Note, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts of the individual beneficial interests represented by such Registered Global Note to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in such a Registered Global Note will be limited to Direct Participants or Indirect Participants, including, in the case of a Regulation S Global Note, the respective depositaries of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Registered Global Note accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars of principal and interest in respect of a Registered Global Note accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Note. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Note in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants’ account.

The Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The Issuer also expects that payments by Participants to beneficial owners of Notes will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Principal Paying Agent, the U.S. Registrar or the Issuer. Payment of principal, premium, if any, and interest, if any, on Notes to DTC is the responsibility of the Issuer.

**Transfers of Notes Represented by Registered Global Notes**

Transfers of any interests in Notes represented by a Registered Global Note within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Notes represented by a Registered Global Note to such persons may depend upon the ability to exchange such Notes for Notes in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Notes represented by a Registered Global Note accepted by DTC to pledge such Notes to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Notes may depend upon the ability to exchange such Notes for Notes in definitive form. The ability of any holder of Notes represented by a Registered Global Note accepted by DTC to resell, pledge or otherwise transfer such Notes may be impaired if the proposed transferee of such Notes is not eligible to hold such Notes through a direct or indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described under “*Subscription and Sale and Transfer and Selling Restrictions*”, cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the relevant Registrar, the Principal Paying Agent and any custodian (**Custodian**) with whom the relevant Registered Global Notes have been deposited.

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Clearstream, Luxembourg and Euroclear and transfers of Notes of such Series between participants in DTC will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear, on the other, transfers of interests in the relevant Registered Global Notes will be effected through the relevant Registrar, the Principal Paying Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among participants and accountholders of DTC, Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Agents or any Dealer will be responsible for any performance by DTC, Clearstream, Luxembourg or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

# TAXATION

## SPAIN

*The following summary refers solely to certain Spanish tax consequences of the acquisition, ownership and disposition of the Notes. It does not purport to be a complete analysis of all tax consequences relating to the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which might be subject to special rules. Prospective investors should consult their own tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes and the tax laws of Spain of acquiring, holding and disposing of Notes and receiving any payments under the Notes. This summary is based upon the law as in effect on the date of this Offering Circular and is subject to any change in law that may take effect after such date. References in this section to Noteholders include the beneficial owners of the Notes.*

### **Acquisition of the Notes**

The issue of, subscription for, transfer and acquisition of the Notes is exempt from Transfer and Stamp Tax (*Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados*) and Value Added Tax (*Impuesto sobre el Valor Añadido*).

### **Taxation on the income and transfer of the Notes**

The tax treatment of the acquisition, holding and subsequent transfer of the Notes is summarised below and is based on the tax regime applicable to the Notes pursuant to Royal Legislative Decree 5/2004 of 5th March approving the consolidated text of the Non-Resident Income Tax Law (*Impuesto sobre la Renta de los no Residentes*), as amended by Law 26/2014 of 27th November (the **Non-Resident Income Tax Law**), Law 27/2014 of 27th November on Corporate Income Tax (*Impuesto sobre Sociedades*), Law 35/2006 of 28th November on Personal Income Tax (*Impuesto sobre la Renta de las Personas Físicas*), as amended by Law 26/2014 of 27th November, Law 19/1991 of 6th June approving the Wealth Tax Law (*Impuesto sobre el Patrimonio*) and Law 29/1987 of 18th December approving the Inheritance and Gift Tax Law (*Impuesto sobre Sucesiones y Donaciones*). The summary below also considers the rules for the implementation of such regulations (Royal Decree 1776/2004 of 30th July approving the Non-Resident Income Tax Regulations as amended by Royal Decree 633/2015 of 10th July, Royal Decree 439/2007 of 30th March, approving the Individuals Income Tax Regulations as amended by Royal Decree 633/2015 of 10th July and Royal Decree 634/2015 of 10th July approving the Corporate Income Tax Regulations).

Consideration has also been given to Spanish legislation on the issuance of preferred securities and debt securities issued by Spanish financial and non-financial listed entities, either directly or through a subsidiary, Law 10/2014 and RD 1065/2007 approving the General Regulations relating to tax inspection and management procedures and developing the common rules of the procedures to apply taxes.

### ***Income not obtained through a permanent establishment in Spain in respect of the Notes***

Income obtained by Noteholders who are not tax resident in Spain acting for these purposes without a permanent establishment within Spain is exempt from Non-Resident Income Tax subject to the reporting obligations as set out in RD 1065/2007 (see “*-Tax Reporting Obligations of the Issuer-*”).

### ***Income obtained through a permanent establishment in Spain in respect of the Notes / Corporate Income Tax taxpayers.***

The holding of Notes by investors who are not resident for tax purposes in Spain will not in itself create the existence of a permanent establishment in Spain.

Income obtained by non-Spanish resident holders acting through a permanent establishment in Spain in respect of the Notes will be taxed under the rules provided by Chapter III of the Non-Resident Income Tax

Law. These Noteholders will be subject to taxation substantially in the same manner as Spanish Corporate Income Tax taxpayers and, therefore, it shall be computed as taxable income in accordance with the general rules set out in the Corporate Income Tax Law and will therefore be taxed at the current rate of 25 per cent.

According to RD 1065/2007, the Issuer is not obliged to withhold any tax amount on income derived from payment of interest, redemption or repayment of the Notes provided that the information procedures (which do not require identification of the Noteholders) are complied with by the Paying Agent as it is described in section “*Taxation - Tax Reporting Obligations of the Issuer*”.

Income derived from the transfer of the Notes shall not be subject to withholding tax as provided by Section 61(s) of the Corporate Income Tax Regulations, to the extent that the Notes satisfy the requirements laid down by the reply to the Directorate General for Taxation’s (*Dirección General de Tributos*) consultation, on 27th July, 2004, indicating that in the case of issuances made by entities with tax residency in Spain (as in the case of the Issuer), application of the exemption requires that the Notes be placed outside Spain in another OECD country and traded on organised markets in OECD countries. Notes issued under the Programme are expected to satisfy these requirements.

### ***Individuals with tax residency in Spain***

Income obtained by Noteholders who are Personal Income Tax taxpayers, both as interest and in connection with the transfer, redemption or repayment of the Notes, shall be considered income on investments obtained from the assignment of an individual’s capital to third parties, as defined in Section 25.2 of Individuals Income Tax Law, and therefore will be taxed as savings income at the applicable rate (currently varying from 19 per cent. to 23 per cent.).

The above mentioned income will be subject to the corresponding personal income tax withholding at the applicable tax rate of 19 per cent. Article 44 of the RD 1065/2007 has established new information procedures for debt instruments issued under the Law 10/2014 (which do not require identification of the Noteholders) and has provided that the interest will be paid by the Issuer to the Paying Agent for the whole amount, provided that such information procedures are complied with.

Nevertheless, withholding tax at the applicable rate of 19 per cent. may have to be deducted by other entities (such as depositaries or financial entities), provided that such entities are resident for tax purposes in Spain or have a permanent establishment in Spanish territory.

According to RD 1065/2007, the Issuer is not obliged to withhold any tax amount provided that the information procedures (which do not require identification of the Noteholders) are complied with by the Paying Agent as it is described in section “*Tax Reporting Obligations of the Issuer*”.

However, regarding the interpretation of the “*Tax Reporting Obligations of the Issuer*” please refer to “*Risk Factors - Spanish tax rules*”.

### **Wealth Tax**

According to Royal Decree-law 13/2011 dated 16th September, 2011, as amended by Law 48/2015, dated 29th October, 2015, individuals with tax residency in Spain are subject to Wealth Tax in the tax year 2016 to the extent that their net worth exceeds €700,000. Therefore, they should take into account the value of the Notes which they hold as at 31st December, 2016.

Individuals resident in a country with which Spain has entered into a double tax treaty in relation to Wealth Tax would generally not be subject to such tax. Otherwise, non-Spanish resident individuals whose properties and rights are located in Spain, or that can be exercised within the Spanish territory, exceed €700,000 would be subject to Wealth Tax at the applicable rates, ranging between 0.2 per cent. and 2.5 per cent., without prejudice to any exemption which may apply.

As a consequence of the European Court of Justice judgment (Case C-127/12), the Net Wealth Tax Law has been amended by Law 26/2014, of 27th November. As a result, Non-Spanish tax resident individuals who are residents in the EU or in the European Economic Area can apply the legislation of the region in which the highest value of the assets and rights of the individuals are located.

Legal entities are not subject to Wealth Tax.

### **Inheritance and Gift Tax**

The transfer of the Notes to individuals by inheritance, legacy or donation shall be subject to the general rules of Inheritance and Gift Tax (*Impuesto sobre Sucesiones y Donaciones*) in accordance with the applicable Spanish and State rules even if title passes outside Spain and neither the heir nor the beneficiary, as the case may be, is resident in Spain for tax purposes, without prejudice to the provisions of any DTT signed by Spain.

The effective tax rate, after applying all relevant factors, ranges between 0 per cent. and 81.6 per cent.

However, a judgment from the European Court of Justice dated 3rd September, 2014 declared that the Spanish Inheritance Tax Act is against the principle of free movement of capital within the EU as Spanish residents are granted tax benefits that, in practice, allow them to pay much lower taxes than non-residents. According to Law 26/2014, of 27th November, it will be possible to apply tax benefits approved in some Spanish regions to EU residents by following certain specific rules.

In the event that the beneficiary is an entity other than a natural person, the income obtained shall be subject to Corporate Income Tax or Non-Resident Income Tax, as the case may be, and without prejudice, in the latter event, to the provisions of any DTT that may apply.

### ***Tax Reporting Obligations of the Issuer***

Article 44 of RD 1065/2007 sets out the reporting obligations applicable to preference shares and debt instruments issued under Law 10/2014. The procedures apply to interest deriving from preference shares and debt instruments to which Law 10/2014 refers, including debt instruments issued for a period of less than twelve months.

According to the literal wording of Article 44.5 of RD 1065/2007 income derived from securities originally registered with the entities that manage clearing systems located outside Spain, that are recognised by Spanish law or by the law of another OECD country (such as DTC, Euroclear or Clearstream, Luxembourg), will be paid free of Spanish withholding tax provided that the Paying Agent appointed by the Issuer submits a statement to the Issuer, the form of which is included in the Agency Agreement, with the following information:

- (i) identification of the securities;
- (ii) payment date;
- (iii) total amount of income paid on the relevant date; and
- (iv) total amount of the income corresponding to each clearing house located outside Spain.

In accordance with Article 44 of RD 1065/2007, the Paying Agent should provide the Issuer with the statement on the business day immediately prior to each interest payment date. The statement must reflect the situation at the close of business of that same day. In the event that on the date, the entities obliged to provide the declaration fail to do so, the Issuer or the Paying Agent on its behalf will make a withholding at the general rate of 19 per cent. on the total amount of the return on the relevant Notes otherwise payable to such entity.

Notwithstanding the foregoing, the Issuer has agreed that in the event withholding tax should be required by law, the Issuer shall pay such additional amounts as would have been received had no such withholding or

deduction been required, except as provided in Condition 7 and as otherwise described in this Offering Circular.

As at the date of this Offering Circular, the Issuer has entered into an agreement with a Tax Certification Agent in order to establish a procedure for the disclosure of information regarding Noteholders who are resident in Spain for tax purposes. Such information will be provided, to the Spanish Tax Authorities by the Issuer.

Regarding the interpretation of Article 44 RD 1065/2007 and the simplified information procedures please refer to “*Risk Factors - Spanish tax rules*”.

### THE PROPOSED FINANCIAL TRANSACTIONS TAX (FTT)

On 14th February, 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate and participating Member States may decide not to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

### U.S. FOREIGN ACCOUNT TAX COMPLIANCE ACT WITHHOLDING

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a **foreign financial institution** (as defined by FATCA) may be required to withhold on certain payments it makes (**foreign passthru payments**) to persons that fail to meet certain certification, reporting or related requirements. The issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Spain have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (**IGAs**), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as Notes, such withholding would not apply prior to 1st January, 2019 and Notes issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the issuer). However, if additional Notes (as described under “Terms and Conditions—Further Issues”) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under

## **TAXATION**

---

FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA.

Holders should consult their own tax advisers regarding how these rules may apply to their investment in Notes.

## SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

The Dealers have, in an amended and restated programme agreement dated 18th December, 2015 as supplemented by a supplemental programme agreement dated 25th November, 2016 (such amended and restated programme agreement as further amended and/or supplemented and/or restated from time to time, the **Programme Agreement**) agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase or procure subscribers for Notes. Any such agreement will extend to those matters stated under “*Form of the Notes*” and “*Terms and Conditions of the Notes*”. In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of its expenses in connection with the establishment and any future update of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

In order to facilitate the offering of any Tranche of the Notes, certain persons participating in the offering of the Tranche may engage in transactions that stabilise, maintain or otherwise affect the market price of the relevant Notes during and after the offering of the Tranche. Specifically such persons may over-allot or create a short position in the Notes for their own account by selling more Notes than have been sold to them by the Issuer. Such persons may also elect to cover any such short position by purchasing Notes in the open market. In addition, such persons may stabilise or maintain the price of the Notes by bidding for or purchasing Notes in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Notes are reclaimed if Notes previously distributed in the offering are repurchased in connection with stabilisation transactions or otherwise. The effect of these transactions may be to stabilise or maintain the market price of the Notes at a level above that which might otherwise prevail for a limited period after the Issue Date. The imposition of a penalty bid may also affect the price of the Notes to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilising or other transactions. Such transactions, if commenced, may be discontinued at any time and must be brought to an end after a limited period. Under UK laws and regulations stabilisation activities may only be carried on by the Stabilisation Manager named in the applicable Final Terms (or persons acting on its behalf) and may only continue for a limited period following the Issue Date (or, if the ending day would be earlier, 60 days after the date of allotment) of the relevant Tranche of Notes.

### Transfer Restrictions

*As a result of the following restrictions, purchasers of Notes in the United States are advised to consult legal counsel prior to making any purchase, offer, sale, resale or other transfer of such Notes.*

UNTIL THE EXPIRY OF THE PERIOD OF 40 DAYS AFTER THE COMPLETION OF THE DISTRIBUTION, AS DETERMINED AND CERTIFIED BY THE RELEVANT DEALER OR, IN THE CASE OF AN ISSUE OF NOTES ON A SYNDICATED BASIS, THE RELEVANT LEAD MANAGER, OF ALL THE NOTES OF THE TRANCHE OF WHICH THIS NOTE FORMS PART, SALES MAY NOT BE MADE UNLESS MADE (I) TO NON-U.S. PERSONS OUTSIDE THE UNITED STATES PURSUANT TO RULE 903 OR 904 OF REGULATION S UNDER THE SECURITIES ACT OR (II) TO QUALIFIED INSTITUTIONAL BUYERS AS DEFINED IN, AND IN TRANSACTIONS PURSUANT TO, RULE 144A UNDER THE SECURITIES ACT OR (III) TO INSTITUTIONAL “ACCREDITED INVESTORS” (AS DEFINED IN RULE 501(A)(1), (2), (3) OR (7) UNDER THE SECURITIES ACT) THAT PROVIDE A DULY EXECUTED INVESTMENT LETTER SUBSTANTIALLY IN THE FORM SET OUT IN THE AGENCY AGREEMENT.”; and

- (h) that the Issuer and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that if any of such acknowledgements, representations or agreements made by it are no longer accurate, it shall promptly notify the Issuer; and if it is acquiring any Notes as a fiduciary or agent for one or more accounts it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account.

Institutional Accredited Investors who purchase Registered Notes in definitive form offered and sold in the United States in reliance upon the exemption from registration provided by Regulation D of the Securities Act are required to execute and deliver to the U.S. Registrar an IAI Investment Letter. Upon execution and delivery of an IAI Investment Letter by an Institutional Accredited Investor, Notes will be issued in definitive registered form, see “*Form of the Notes*”.

## SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

---

The IAI Investment Letter will state, among other things, the following:

- (a) that the Institutional Accredited Investor has received a copy of the Offering Circular and such other information as it deems necessary in order to make its investment decision;
- (b) that the Institutional Accredited Investor understands that any subsequent transfer of the Notes is subject to certain restrictions and conditions set forth in the Offering Circular and the Notes (including those set out above) and that it agrees to be bound by, and not to resell, pledge or otherwise transfer the Notes except in compliance with, such restrictions and conditions and the Securities Act;
- (c) that, in the normal course of its business, the Institutional Accredited Investor invests in or purchases securities similar to the Notes;
